TECHNICAL NOTES

USDA-Natural Resources Conservation Service
Boise, Idaho

TN RANGE NO. 24 **October 2002**

The attached Technical Note, Anti-Quality Factors in Rangeland and Pastureland Forages, is published by USDA-NRCS Grazing Lands Technology Institute, and the Department of Rangeland Ecology and Management at the University of Idaho. The summarized information, edited by Dr. Karen Launchbaugh, contained in this Technical Note is the proceedings from a symposium presented by the American Forage and Grassland Council and the Society for Range Management in 1999. The detailed scientific publications are available as reprints from Volume 54 of the Journal of Range Management.

This Technical Note is also available on the Internet at:
