STATEMENT OF WORK Aquaculture Pond (397)

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan
 - b. A complete [AL-ENG-27\(a\)](#) form
 - c. List of required permits to be obtained by the client
 - d. Compliance with NRCS national and state utility safety policy ([NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06](#))
 - e. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. Geology and Soil Mechanics (NEM Subpart 531a)
 - ii. Hydrology/Hydraulics and Appurtenance design
 - iii. Structural
 - iv. Vegetation
 - v. Environmental Considerations
 - vi. Safety Considerations ([NEM Part 503-Safety, Subpart A, 503.10 through 503.12](#))
2. Written plans and specifications including sketches and drawings as well as any applicable guide sheets and vegetation plan ([AL-ECS-1](#) or equivalent) shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Design Report and Inspection Plan as appropriate ([NEM Part 511, Design, Subpart B Documentation, 511.11 and Part 512, Construction, Subpart D, Quality Assurance Activities, 512.30 through 512.32](#)).
4. Operation and Maintenance Plan
5. Certification that the design meets practice standard criteria and comply with applicable laws and regulations ([NEM Part 505, Non-NRCS Engineering, 505.03 \(a\) \(3\)](#)).
6. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre Installation conference with client and contractor which includes information on minimizing erosion and controlling sediment during construction.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Certification of adequate foundation cut-off excavation.
5. Certification of principal spillway installation procedures.
6. Installation inspection (according to inspection plan as appropriate).
 - a. Actual materials used ([NEM Part 512, Construction, Subchapter D, Quality Assurance Activities, 512.33](#))
 - b. Testing of materials or installation procedures (compaction verification, concrete tests, placement of materials, etc.)
 - c. Inspection records
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meets design and permit requirements.

STATEMENT OF WORK Aquaculture Pond (397)

CHECK OUT

Deliverables

1. As-Built documentation.
 - a. Extent of practice units applied
 - b. Drawings
 - c. Final quantities
2. Check out surveys to verify that construction meets plans and specifications.
3. Certification that the installation meets NRCS standards and specifications and is in compliance with permits [\[NEM Part 505, Non-NRCS Engineering, 505.03 \(c\) \(1\)\]](#).
4. Certification that the entire site is stabilized with permanent vegetation (**AL-ECS-2** or equivalent).
5. Progress reporting.
