TECHNICAL GUIDE NOTICE IL-51

This notice transmits new "Windbreak Planting Groups" for Illinois. Place the list of Windbreak Planting Groups in Section II-F of the Technical Guide immediately in front of Table No. 1 - Tree Planting Guide. When you receive a Technical Guide divider entitled Section II-N, refile with the new divider in the proper place.

The Windbreak Planting Groups guide is not usable without a legend showing the windbreak planting group to which each correlated soil in the area covered by the Technical Guide has been assigned.

When the Windbreak Planting Groups and a legend showing which group each correlated soil has been assigned to has been placed in a Technical Guide cross out the Windbreak Planting Guides in Tables I & II. The Windbreak Planting Guide in Table III remains valid as the Disturbed Soils Groups have not been assigned to Windbreak Planting Groups.
