

# 645 – Upland Wildlife Habitat Management

State Biologist  
Planning Unit: Acre  
Reporting Unit: Acre

## FACT SHEET

*October, 2010*

### PRACTICE DEFINITION

Provide and manage upland habitats and connectivity within the landscape for wildlife.

### PRACTICE PURPOSE

Treating upland wildlife habitat concerns identified during the conservation planning process that enable movement, or provide shelter, cover, food in proper amounts, locations and times to sustain wild animals that inhabit uplands during a portion of their life cycle.

### PRACTICE INFORMATION

This practice applies to land where the decision maker has identified an objective for conserving a wild animal species, guild, suite or ecosystem.

Land within the range of targeted wildlife species and capable of supporting the desired habitat.
