Guidance Document

Landuse: _____ **Resource Area:** _____ **Soil Grouping:** _____ **Slope:** _____

Resource Setting: _____

	Resource Problem or Concern									
RMS Plans										

Example

Guidance Document

Landuse: Dry Cropland Resource Area: 74 Soil Grouping: 74,8 Slope: 1-3%

Resource Setting: Long slopes on flat land causes sheet & rill erosion. Little or no wildlife cover is usually present. Excessive amounts of nutrients are usually applied.
