TECHNICAL GUIDE NOTICE NO. 334

This notice transmits three updated practice job sheets:

Conservation Cover (327)-Native Grass Planting,
Conservation Cover (327)-Introduced Grass Planting,
Tree/Shrub Establishment (612).

An update to these job sheets was needed based on new CRP requirements that state the CRP Conservation Practice (CP) name must be included on the front of establishment job sheets. To meet this requirement, a block was added to allow the CRP practice name to be included under the participant name when applicable. In addition, all three job sheets are now in a fill-able pdf format. No technical changes were made to the job sheets.

While these job sheets go into effect upon receipt and will be used for developing conservation plans for CRP Signup 41, either the previous versions, or the new versions, may be used for developing 2011 WHIP, EQIP, CSP, and State Cost Share conservation plans. After completion of 2011 contracts, the new version should be used.

The revised job sheets have been posted on eFOTG in Section IV under the appropriate practice name. The filenames are: Conservation_Cover_327_JS_Native_Grasses.pdf; Conservation_Cover_327_JS_Intro_Grasses.pdf; and Tree_Shrub_Establishment_612_JS.pdf.

Filing Instructions:

- Download these documents from eFOTG as needed.
