# Contents

PAGE

*INTRODUCTION* . . . . . 1
The Ecology of Fire . . . . . 1
Prescribed Fire History . . . . . 1
Present Use . . . . . 2
Impact of Prescribed Burning . . . . . 2

*REASONS FOR PRESCRIBED FIRE IN FOREST RESOURCE MANAGEMENT* . . . . . 3
Reduce Hazardous Fuels . . . . . 3
Dispose of Logging Debris . . . . . 4
Prepare Sites For Seeding or Planting . . . . . 4
Improve Wildlife Habitat . . . . . 4
Manage Competing Vegetation . . . . . 5
Control Insects and Disease . . . . . 5
Improve Forage For Grazing . . . . . 6
Enhance Appearance . . . . . 6
Improve Access . . . . . 7
Perpetuate Fire-dependent Species . . . . . 7

*ENVIRONMENTAL EFFECTS* . . . . . 8
Vegetation . . . . . 8
Soil . . . . . 9
Water . . . . . 10
Air . . . . . 10
Human Health and Welfare . . . . . 11
Wildlife . . . . . 11
Aesthetics . . . . . 12

*WEATHER AND FUEL CONSIDERATIONS* . . . . . 13
Important Weather Elements . . . . . 13
Sources of Weather Information . . . . . 14
Wind . . . . . 14
Underburning . . . . . 14
Debris burning . . . . . 15
Relative Humidity . . . . . 15
Underburning . . . . . 15
Debris burning . . . . . 15
Temperature . . . . . 16
Underburning . . . . . 16
Debris burning . . . . . 16
Rainfall and Soil Moisture . . . . . 16
Underburning . . . . . 16
Debris burning . . . . . 16
Fine-Fuel Moisture . . . . . 16
Underburning . . . . . 16
Debris burning . . . . . 17
Airmass Stability and Atmospheric Dispersion . . . . . 18
Underburning . . . . . 18
Debris burning . . . . . 18

*FIRING TECHNIQUES* . . . . . 20
General . . . . . 20
Backing Fire . . . . . 21
Factors Associated with Backing Fires . . . . . 21

Strip-heading Fire . . . . . 22
Factors Associated with Strip-heading Fires . . . . . 22
Flanking Fire . . . . . 23
Factors Associated with Flanking Fires . . . . . 23
Point Source Fires . . . . . 24
Factors Associated with Point Source Fires . . . . . 25
Aerial Ignition . . . . . 25
Factors Associated with Aerial Ignition . . . . . 25
Factors Associated with Ping-pong Ball (DAID) System . . . . . 26
Factors Associated with Helitorch System . . . . . 26
Center and Circular (Ring) Firing . . . . . 27
Pile and Windrow Burning . . . . . 27
Factors Associated with Pile and Windrow Burning . . . . . 28

*SMOKE MANAGEMENT* . . . . . 29
Table 1. – Relationship of Dispersion Index to On-the-ground Burning Conditions . . . . . 29
Table 2. – Effect of Smoke Concentration on Visibility . . . . . 30
Screening System For Managing Smoke . . . . . 30

*PLANNING THE PRESCRIBED BURN* . . . . . 33
The Written Plan . . . . . 33
Table 3. – Effects of Age of Rough on Some Common Fire Parameters . . . . . 33
Simple Understory Prescribed Burning Unit Plan . . . . . 34
Understory Prescribed Burning Unit Plan . . . . . 35
Postharvest Prescribed Burning Unit Plan . . . . . 36

*PREPARING FOR THE PRESCRIBED BURN* . . . . . 41
Steps to be Considered . . . . . 41
Establishing Control Lines . . . . . 41
After Plow Lines Are Established . . . . . 41
Burning-unit Map . . . . . 41

*EXECUTING THE BURN* . . . . . 42
Checklist . . . . . 43

*EVALUATING THE BURN* . . . . . 44
Indications and Guidelines . . . . . 44
Needle Scorch . . . . . 44
Soil and Root Damage . . . . . 44
Air Quality . . . . . 44
Timing and Points to Evaluate . . . . . 45

*COORDINATION OF BURNING* . . . . . 46

*RULES OF THUMB* . . . . . 48

*RED FLAG SITUATIONS* . . . . . 49

*GLOSSARY* . . . . . 50

*SUGGESTED READING* . . . . . 54
