NOV 17 2014

MARYLAND TECHNICAL GUIDE
CHANGE NOTICE NO. 91

Purpose. To provide field staff with the updated versions of the Resource Inventory (MD-RES-001) and the Conservation Plan Checklist.

Effective Date. Upon receipt.

Explanation:

Section II: The "Resource Inventory for Conservation Planning (MD-RES-001)" has been revised to provide the planner with more specific resource concerns to choose from for each individual land use. Also, the forms now reflect the new terms for land uses. These changes should allow planners to accurately assess and document resource issues. This document is to be used during the planning phase and should be completed and filed in the plan folder when the plan is written.

Section III: The "Conservation Plan Checklist" has been revised to provide specific guidance to the documents that are required to be filed in the conservation plan folder. This checklist should also be included in the plan folder.

Upon receipt of this notification, please refrain from accessing these documents from any other source (e.g. MD NRCS home page or MD SharePoint). This will ensure use of the correct version.

Filing Instructions.

All documents are distributed in electronic format.

Section I:

- File this Change Notice in the front of Section I of the Field Office Technical Guide.
- File the Change Notice Register

Section II:

- File the revised Table of Contents.
- File the Resource Inventory for Conservation Planning Field Evaluation Worksheet in Section II-F Resource Inventory (new section).

Section III:

- File the revised Table of Contents
- File the Conservation Plan Checklist under Section III-C Guidance Documents
