NEW MEXICO FIELD OFFICE TECHNICAL GUIDE
TRANSMITTAL NOTICE NO. 47

SUBJECT: ECS- Section I, Environmental Evaluation, NRCS-CPA-52 NM Appendix 1.

Purpose: This notice transmits a new Appendix to the Environmental Evaluation form NRCS-CPA-52, for insertion into the New Mexico FOTG Section I.

Effective Date: This notice is effective when received.

Explanation: In some cases, the conservation planning process may require that NRCS consult with other Federal agencies to ensure that planned actions comply with environmental laws. Before initiating site-specific consultation with other Federal agencies, NRCS must obtain written consent of the landowner and/or land user (when the land user provides written indication of having complete control over the land, the landowner's consent is not required). This form may be used to provide landowner/land user consent. *Title 190 Part 610 G - NECH*

The special resource concern worksheets, found within the form NRCS-CPA-52, provide guidance on when site-specific consultation is required by policy.
