SUBJECT: TCH - TECHNICAL GUIDE
NOTICE NO. 14

DATE: June 21, 1994

TO: All Holders of the PA Soil and Water Conservation Technical Guide

FILE CODE: 450-11

Purpose: To provide a revised standard and specification in Section IV for Conservation Practice (CP) 580, Streambank and Shoreline Protection. This standard and specification was revised primarily to provide guidance and inclusion of soil bioengineering and other vegetative techniques. Note that rather than making this standard and specification lengthy by repeating information in CP 342, that information is included by reference to CP 342. Therefore, when applicable for vegetative practices, the CP 342 specification will need to be used in addition to CP 580 on some projects.

Filing Instructions: Remove and replace Conservation Practice 580 in Section IV.

This change should be recorded on the Technical Guide Notice Register in the Front of Section 1 of the Field Office Technical Guide.

RICHARD N. DUNCAN
State Conservationist
