SOUTH CAROLINA TECHNICAL GUIDE
NOTICE 335

File Code: TCH 450

Subject. Release of an updated version for the South Carolina Technical Guide Notice.

Purpose. To release and distribute the Livestock Watering System (LWS) Design Tool, version 3.0, MS Excel 2007 worksheets.

Effective Date. This notice is effective upon receipt.

Background. The LWS Design Tool, version 2.0 was released in November 2011. Version 3.0 is in response to comments raised during the initial use of the design tool. The main difference is the single LWS design tool (version 2.0) has been separated into three individual tools (version 3.0), which focus on the water source (water well, public, or gravity).

Explanation. The three LWS design tools, v3.0 are available on the Field Office Technical Guide (FOTG) website under "Section IV/Tools/Engineering Tools/Livestock Water Systems".

Filing Instructions. The LWS design tools, version 3.0 will replace version 2.0.

Contact. Questions or comments regarding the LWS design tools, version 3.0 may be addressed to Yasmin Bennett, State Water Management Engineer at yasmin.bennett@sc.usda.gov or (843) 549-1821 x 3.
