

**NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE CONSTRUCTION SPECIFICATION
WASTE TREATMENT LAGOON
CODE 359**

A separate and distinct construction specification for this practice has not been prepared. The installation of a waste treatment lagoon shall be in accordance with the following conservation practice construction specifications, as may be applicable:

- 378 (Pond)
- 587 (Structure for Water Control)
- 587C (Structure for Water Control, Concrete)
- 587G (Structure for Water Control, Gates)
- 587MF (Structure for Water Control, Metal Fabrication)
- 587T (Structure for Water Control, Timber)

The designer may also select other specifications developed for the type of structure (earthwork, concrete, metal, et cetera) as may be applicable.
