

STATEMENT OF WORK Pond Sealing or Lining, Geomembrane (521) Vermont

These deliverables apply to this individual practice. For deliverables for other planned practices, refer to those specific Statements of Work.

DESIGN

Deliverables

1. Design documents that demonstrate criteria in practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Compliance with NRCS national and State utility safety policy (NEM Part 503-Safety, Section 503.00 through 503.22).
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to—
 - i. Hydrogeology.
 - ii. Type of liner.
 - iii. Application rate and/or liner thickness.
 - iv. Liner protection.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Design Report and Inspection Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11, and Part 512, Subpart D Quality Assurance Activities, 512.30 through 512.33).
4. Operation and maintenance plan.
5. Certification that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Part 505, Subpart A).
6. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-installation conference with client and contractor.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Installation inspection including—
 - a. Actual materials used.
 - b. Inspection records.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all Federal, State, Tribal, and local laws, regulations, and NRCS policies during installation.
7. Certification that the installation process and materials meet design and permit requirements.

CHECK OUT

Deliverables

1. As-built documentation including—

- a. Extent of practice units applied.
 - b. Drawings.
 - c. Final quantities.
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Part 505, Subpart A).
3. Progress reporting.
