

## **STATEMENT OF WORK**

### **Contour Farming (330)**

### **National Template**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

## **DESIGN**

---

### **Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client
  - c. List all required and/or facilitating practices
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Percent land slope and slope length
    - ii. Planning soil map unit
    - iii. Planned contour row grade
    - iv. Minimum ridge heights and row spacing
    - v. Minimum and maximum allowable row grades for the contour system
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the conservation practice standard Contour Farming (Code 330) and documented on the 330 Implementation Requirements Document.
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required documented on the 330 Implementation Requirements Document.

## **INSTALLATION**

---

### **Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
6. Certification that the application process and materials meets design and permit requirements

## **CHECK OUT**

---

### **Deliverables**

1. Records of application
  - a. Actual row grade and ridge height applied
  - b. Extent of practice units applied
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits documented on the 330 Implementation Requirements Document.
3. Progress reporting
