Subject: Statewide NRCS Programmatic Agreement

Dear Ms. Tapio-Harper:

The Alaska State Historic Preservation Office (AK SHPO) received your correspondence on June 1, 2017.

We have reviewed the subject Programmatic Agreement (PA) and find it to be satisfactory. We have signed the one copy of the signature page provided for the *Prototype Programmatic Agreement Between the U.S. Department of Agriculture, Alaska Natural Resources Conservation Service State Office and the Alaska State Historic Preservation Officer Regarding Conservation Assistance* and are returning a copy to you for your records. We have retained a fully executed copy for our records.

Thank you for the opportunity to comment. Please contact Shina duVall at 269-8720 or shina.duvall@alaska.gov if you have any questions or if we can be of further assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Judith E. Bittner".

Judith E. Bittner
State Historic Preservation Officer

JEB:sad

**PROTOTYPE PROGRAMMATIC
AGREEMENT BETWEEN THE
US DEPARTMENT OF AGRICULTURE,
ALASKA NATURAL RESOURCES CONSERVATION SERVICE STATE OFFICE
AND
THE ALASKA STATE HISTORIC PRESERVATION OFFICER,
REGARDING CONSERVATION ASSISTANCE**

WHEREAS, the United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) administers numerous voluntary assistance programs, special initiatives, and grant and emergency response programs for soil, water, and related resource conservation activities available to eligible private producers, States, commonwealths, Federally Recognized Tribal governments, other government entities, and other applicants for conservation assistance, pursuant to the Agricultural Act of 2014 (2014 Farm Bill, Public Law 113-79); Soil Conservation and Domestic Allotment Act of 1935 (Public Law 74-46, 16 U.S.C. 590 a-f, as amended); the Flood Control Act of 1944 (Public Law 78-534, as amended); the Watershed Protection and Flood Prevention Act (Public Law 83-566, as amended, 16 U.S.C. 1001-1012); the Agricultural and Food Act of 1981 (Public Law 97-98, 95 Stat. 1213); the Agricultural Credit Act (Public Law 95-3341, Title IV, Section 403); Food, Agriculture, Conservation and Trade Act of 1990 (Public Law 101-624); the Flood Control Act of 1936 (Public Law 74-738); the Food Security Act of 1985 (Public Law 99-198, as amended); the Federal Agricultural Improvement and Reform Act of 1996 (Public Law 104-127); and executive and secretarial orders, implementing regulations and related authorities; and

WHEREAS, the NRCS, through its conservation assistance programs and initiatives, provides assistance for activities with the potential to affect historic properties eligible for or listed in the National Register of Historic Places (NRHP), including National Historic Landmarks (NHLs) and therefore constitute undertakings subject to review under Section 106 of the National Historic Preservation Act (NHPA), 54 U.S.C. 306108, and its implementing regulations, 36 CFR Part 800, including the provisions of these regulations addressing NHLs at 36 CFR Part 800.10; and

WHEREAS, the NRCS has determined that the requirement to take into account the effects to historic properties of its undertakings may be more effectively and efficiently fulfilled through the use of a Prototype Programmatic Agreement (PPA); and

WHEREAS, the NRCS Alaska State Office has consulted with the Alaska State Historic Preservation Officer (SHPO) and Alaska Native Tribes and Alaska Native Claims Settlement Act (ANCSA) Corporations (Appendix A) the instructions in the ACHP letter that accompanied the PPA, dated November 21, 2014 (Appendix B); and

WHEREAS, the NRCS also is responsible for fulfilling the requirements of the National Environmental Policy Act (NEPA), including the use of categorical exclusions, and coordinating NEPA and Section 106 reviews, as appropriate; and

WHEREAS, the NRCS developed this PPA in consultation with the National

Conference of State Historic Preservation Officers (NCSHPO) and its members, interested Indian tribes, Native Hawaiian organizations, interested historic preservation organizations, (such as the National Trust for Historic Preservation), and the Advisory Council on Historic Preservation (ACHP); and

WHEREAS, in accordance with 36 CFR Part 800.14(b)(4), the ACHP has designated this agreement as a Prototype Agreement, which allows for the development and execution of subsequent prototype agreements by individual NRCS State office(s) (State based Prototype Programmatic Agreement [SPPA]) to evidence compliance with Section 106; and

WHEREAS, this SPPA conforms to the NRCS PPA as designated by the ACHP on November 21, 2014, and therefore, does not require the participation or signature of the ACHP when the NRCS State Office and the SHPO agree to the terms of the SPPA; and

WHEREAS, this PPPA replaces the 2002 nationwide “Programmatic Agreement among the United States Department of Agriculture Natural Resources Conservation Service, the Advisory Council on Historic Preservation, and the National Conference of State Historic Preservation Officers relative to Conservation Assistance,” as amended in 2011 and 2012, which expired on November 20, 2014; and

WHEREAS, the NRCS State Conservationist is the responsible federal agency official within the state for all provisions of Section 106, including consultation with the SHPO, and government-to government consultation with Alaska Native Tribes and ANCSA Corporations to negotiate the SPPA; and

WHEREAS, the SPPA does not apply to undertakings occurring on or affecting historic properties on Tribal lands, as defined by 54 U.S.C. 300319 of the NHPA, without prior agreement and execution of a SPPA with the concerned Alaska Native Tribes and ANCSA Corporations; and

WHEREAS, the NRCS has consulted with Alaska SHPO, Alaska Native Tribes, and ANCSA Corporations as listed in Appendix A to enter into this SPPA as a signatory; and

WHEREAS, this SPPA does not modify the NRCS’ responsibilities to consult with Alaska Native Tribes and ANCSA Corporations on all undertakings that might affect historic properties and properties of religious and cultural significance to them, regardless of where the undertaking is located, without prior agreement by the concerned Alaska Native Tribe or ANCSA Corporation, and recognizes that historic properties of religious and cultural significance to an Alaska Native Tribe or ANCSA Corporation may be located on ancestral homelands or on officially ceded lands near or far from current settlements; and

WHEREAS, when the NRCS conducts individual Section 106 reviews for undertakings under this SPPA, it shall identify and invite other agencies, organizations, and individuals to participate as consulting parties; and

NOW, THEREFORE, the NRCS and the SHPO agree that undertakings in the State of Alaska shall be implemented in accordance with the following stipulations in order to take into account the effect of the undertaking on historic properties.

STIPULATIONS

The NRCS shall ensure that the following stipulations are met and carried out:

I. Applicability.

a. Once executed by the NRCS and the Alaska SHPO, this SPPA sets forth the review process for all the NRCS undertakings subject to Section 106 in the State of Alaska.

b. Execution of this SPPA supersedes any existing State Level Agreement with the SHPO and/or consultation protocols with Alaska Native Tribes or ANCSA Corporations executed under the previous NRCS nationwide Programmatic Agreement, but does not replace any existing project-specific Section 106 agreements (Memoranda of Agreement or Programmatic Agreements).

c. This SPPA applies only when there is a Federal Preservation Officer (FPO) in the NRCS National Headquarters (NHQ) who meets the Secretary of the Interior's Professional Qualification Standards (48 FR 44716).

d. This SPPA applies only where there is staffing or access to staffing (through contracted services or agreements with other agencies or Alaska Native Tribes) who meet the Secretary of Interior's Professional Qualification Standards in the Alaska NRCS State Office.

II. Roles and Professional Qualifications.

a. The NRCS Alaska State Conservationist is responsible for oversight of its performance under this SPPA.

b. The NRCS Alaska shall ensure all NRCS staff or individuals carrying out Section 106 historic preservation compliance work on its behalf, including the NRCS Alaska State senior historic preservation professional staff member (the Cultural Resources Specialist (CRS), or Archaeologist, or Historian), are appropriately qualified to coordinate the reviews of resources and historic properties as applicable to the resources and historic properties being addressed (site, building, structure, landscape, resources of significance to Alaska Native Tribes, ANCSA Corporations, and other concerned communities). Thus, these staff and consultants must meet the Secretary of the Interior's Professional Qualification Standards and have the knowledge to assess the resources within an undertaking's area of potential effects (APE).

c. The Alaska State Conservationist is responsible for consultation with the Alaska SHPO, and government to government consultation with Alaska Native Tribal leaders and/or their THPO and ANCSA Corporations to develop consultation protocols. These responsibilities may not be

delegated to any other staff, nor carried out on behalf of NRCS by another federal agency.

d. The NRCS Alaska CRS/Archaeologist/Historian and/or professional consultants shall provide technical historic property and resource information to the State Conservationist for use in Section 106 findings and determinations, after appropriate consultations with the SHPO, Alaska Native Tribes, ANCSA Corporations and discussions with the landowner. The CRS/Archaeologist/Historian shall monitor and oversee the work and reporting of all the NRCS field office personnel and professional service consultants. The CRS/Archaeologist/Historian shall also assist the State Conservationist in determining whether an undertaking has the potential to affect historic properties, triggering Section 106 review, pursuant to 36 CFR Part 800.3(a).

e. The NRCS field office personnel involved in implementing this SPPA, after completion of the NRCS' web, classroom, and field awareness training acquired through USDA's AgLearn training site, shall work with the CRS/Archaeologist/Historian, as feasible, in completing historic preservation compliance (Section 106) field records for the agricultural producer's (NRCS' client or voluntary applicant for assistance) files and for use in producing initial historic property identification records (as set forth and outlined in NRCS' operational guidance, the National Cultural Resources Procedures Handbook, Title 190, Part 601).

f. The CRS/Archaeologist/Historian in Alaska shall oversee development of the scopes of work for investigation of the APEs for identified undertakings (see 36 CFR Part 800.4). The NRCS may use professional service contractors or consultants or partners to assist with cultural resources compliance studies. The NRCS shall ensure these contractors meet the Secretary of Interior's Professional Qualifications Standards.

g. The NRCS remains responsible for all consultation with the SHPO, Alaska Native Tribes, ANCSA Corporations and THPOs, and all determinations of NRHP eligibility and effect. The NRCS may not delegate consultation for findings and determinations to professional services consultants or producers/applicants for conservation assistance.

h. The Alaska SHPO, if provided sufficient data on a proposed undertaking and APE for the proposed undertaking by the NRCS shall consult and provide a response to the NRCS within 30 calendar days. The definition of sufficient data is provided in 36 CFR Part 800.11.

i. The ACHP shall provide technical guidance, participate in dispute resolution, and monitor the effectiveness of this agreement, as appropriate.

III. Training.

a. The NRCS shall require personnel conducting cultural resources identification and evaluation work to complete, at a minimum, the NRCS Web-based (in USDA AgLearn) and field Cultural Resources Training in modules and the ACHP's Section 106 *Essentials* webinar for NRCS employees.

b. The NRCS shall require CRS/Archaeologist/Historian and/or other NRCS personnel overseeing cultural resource work to take the NRCS Cultural Resources Training Modules (awareness training) and the ACHP's Section 106 *Essentials* course, or a course with similar

content, if approved by the NRCS FPO. Training must be completed within the first calendar year after execution of this SPPA. The NRCS personnel shall review and update training completion with their supervisors and include their training in their Individual Development Plans.

c. The NRCS may invite the SHPO, Alaska Native Tribes, and ANCSA Corporations or staff to participate in presentations at agency classroom or field trainings.

d. The NRCS shall encourage all personnel conducting or overseeing cultural resources work to take additional appropriate specialized training as provided by the SHPO, Alaska Native Tribes, the ACHP, National Park Service, General Services Agency or other agencies, as feasible.

IV. Lead Federal agency.

a. For any undertaking for which the NRCS is the lead federal agency for Section 106 purposes per 36 CFR Part 800.2(a)(2), the NRCS staff shall follow the terms of this SPPA. The NRCS shall notify the SHPO, Alaska Native Tribes, and ANCSA Corporations of its involvement in the undertaking and the involvement of the other federal agencies.

b. For any undertaking for which the NRCS is not the lead federal agency for Section 106 purposes, including those undertakings for which the NRCS provides technical assistance to other USDA or other federal agencies, the terms of this SPPA shall not apply to that undertaking. If the lead federal agency agrees, the NRCS may follow the approved alternative procedures in place for that agency.

V. Review Procedures.

a. In consultation with the Alaska SHPO, the NRCS shall identify those undertakings with little to no potential to affect historic properties and list those undertakings in Appendix C. Upon the determination by the [CRS/Archaeologist/Historian] that a proposed undertaking is included in Appendix C, the NRCS is not required to consult further with the SHPO for that undertaking.

b. The list of undertakings provided in the Appendix C may be modified through consultation and written agreement between the NRCS State Conservationist and the SHPO without requiring an amendment to this SPPA. The NRCS State office will maintain the master list and will provide an updated list to all consulting parties with an explanation of the rationale (metadata) for classifying the practices accordingly.

c. Undertakings not identified in Appendix C shall require further review as outlined in Stipulation V.c. The NRCS shall consult with the SHPO to define the undertaking's APE, identify and evaluate historic properties that may be affected by the undertaking, assess potential effects, and identify strategies for resolving adverse effects prior to approving the financial assistance for the undertaking.

1. The NRCS may provide its proposed APE, identification of historic properties and/or scope of identification efforts, and assessment of effects in a single transmittal

to the SHPO, provided this documentation meets the substantive standards in 36 CFR Part 800.4-5 and 800.11.

2. The NRCS shall attempt to avoid adverse effects to historic properties whenever possible; where historic properties are located in the APE, the NRCS shall describe how it proposes to modify, buffer, or move the undertaking to avoid adverse effects to historic properties.

3. Where the NRCS proposes a finding of “no historic properties affected” or “no adverse effect” to historic properties, the SHPO who shall have 30 calendar days from receipt of this documented description and information to review it and provide comments. The NRCS shall take into account all timely comments.

i. If the SHPO, Alaska Native Tribe(s), ANCSA Corporation(s), or another consulting party, disagrees with NRCS’ findings and/or determination, it shall notify the NRCS within the 30 calendar day time period. The NRCS shall consult with the SHPO, Alaska Native Tribes, ANCSA Corporations or other consulting party to attempt to resolve the disagreement. If the disagreement cannot be resolved through this consultation, the NRCS shall follow the dispute resolution process in Stipulation VIII below.

ii. If the SHPO, Alaska Native Tribe(s), ANCSA Corporation(s) does not respond to the NRCS within the 30 calendar day period and/or the NRCS receives no objections from other consulting parties, or if the SHPO, Alaska Native Tribe(s), ANCSA Corporation(s) concurs with the NRCS’ determination and proposed actions to avoid adverse effects, the NRCS shall document the concurrence/lack of response within the review time noted above, and may move forward with the undertaking.

4. Where a proposed undertaking may adversely affect historic properties, the NRCS shall describe proposed measures to minimize or mitigate the adverse effects, and follow the process in 36 CFR Part 800.6, including consultation with other consulting parties and notification to the ACHP, to develop a Memorandum of Agreement to resolve the adverse effects. Should the proposed undertaking have the potential to adversely affect a known NHL, the NRCS shall, to the maximum extent possible, undertake such planning and actions that may be necessary to minimize harm to the NHL in accordance with 54 U.S.C. 306107 of the NHPA and 36 CFR Part 800.6 and 800.10, including consultation with the ACHP and respective National Park Service, Regional National Historic Landmark Program Coordinator, to develop a Memorandum of Agreement.

VI. Emergency and Disaster Management Procedures (Response to Emergencies)

a. The NRCS shall notify the SHPO, Alaska Native Tribe(s), and ANCSA Corporation(s) immediately or within 48 hours of the emergency determination, following the NRCS’ Emergency Watershed Program (EWP) final rule (see Section 216, P.L. 81-516 Final Rule, 7 CFR Part 624 (April 2005).

b. The NRCS State office shall prepare procedures for exigency (following the rules for the

NRCS' (EWP) regarding immediate threat to life and property requiring, response within 5 days) in consultation with the SHPO, Alaska Native Tribe(s), ANCSA Corporation(s). These procedures are appended to this document and may be modified through consultation and written agreement between the NRCS Alaska State Conservationist and the Alaska SHPO without requiring an amendment to this SPPA.

c. If the NRCS State office has not developed specific procedures for responding to exigencies, the NRCS shall follow the recently approved guidelines for Unified Federal Review issued by the Department of Homeland Security, Federal Emergency Management Service (DHS, FEMA), the Council on Environmental Quality (CEQ), and the ACHP in July 2014, or the procedures in 36 CFR Part 800.12(b).

VII. Post-review discoveries of cultural resources or historic properties and unanticipated effects to historic properties.

a. Where construction has not yet begun and a cultural resource is discovered after Section 106 review is complete, the NRCS shall consult to seek avoidance or minimization strategies in consultation with the SHPO, Alaska Native Tribe(s), and ANCSA Corporation(s), and/or to resolve adverse effects in accordance with 36 CFR Part 800.6.

b. The NRCS shall ensure that every contract for assistance includes provisions for halting work/construction in the area when potential historic properties are discovered or unanticipated effects to historic properties are found after implementation, installation, or construction has begun. When such a discovery occurs, the producer who is receiving financial assistance or their contractor shall immediately notify the NRCS State Conservationist's Office, CRS, supervisory NRCS personnel for the area, and the landowner/applicant.

1. The NRCS CRS shall inspect the discovery within 24 hours, if weather permits, and in consultation with the local NRCS official (field office supervisor or District or Area Conservationist), concerned Alaska Native Tribe(s), ANCSA Corporation(s), the SHPO, the NRCS State engineering or program supervisor, as appropriate, the landowner/producer (whomever the NRCS is assisting), the CRS shall establish a protective buffer zone surrounding the discovery. This action may require inspection by tribal cultural resources experts in addition to the CRS.

2. All the NRCS contact with media shall occur only under the direction of the NRCS Public Affairs Officer, as appropriate, and the State Conservationist.

3. Security shall be established to protect the resources/historic properties, workers, and private property. Local law enforcement authorities will be notified in accordance with applicable State law and NRCS policy in order to protect the resources. Construction and/or work may resume outside the buffer only when the State Conservationist determines it is appropriate and safe for the resources and workers.

4. The NRCS CRS shall notify the SHPO, Alaska Native Tribe(s), and ANCSA Corporation(s) and the ACHP no later than 48 hours after the discovery and describe NRCS' assessment of the National Register eligibility of the property, as feasible and

proposed actions to resolve any adverse effects to historic properties. The eligibility determination may require the assessment and advice of concerned Alaska Native Tribe(s), ANCSA Corporation(s) the SHPO, and technical experts (such as historic landscape architects) not employed by the NRCS.

5. The SHPO, Alaska Native Tribe(s), ANCSA Corporations(s) and ACHP shall respond within 48 hours from receipt of the notification with any comments on the discovery and proposed actions.

6. The NRCS shall take any comments provided into account and carry out appropriate actions to resolve any adverse effects.

7. The NRCS shall provide a report to the SHPO, Alaska Native Tribe, and ANCSA Corporations and the ACHP of the actions when they are completed.

c. When human remains are discovered, the NRCS shall follow all applicable federal, tribal, and state burial laws and ordinances, including the Native American Graves Protection and Repatriation Act, and implementing regulations, when on tribal or federal lands, and related human rights and health statutes, where appropriate. NRCS shall also refer to the ACHP's Policy Statement regarding *Treatment of Burial Sites, Human Remains and Funerary Objects* and the ACHP's Section 106 Archaeology Guidance. NRCS shall also follow USDA and NRCS policy on treatment of human remains and consultation. The NRCS shall also refer to the State of Alaska statutes regarding human remains, AS 12.65.5, AS 11.46.482(a)(3), and AS 18.50.250.

VIII. Dispute resolution.

a. Should any consulting or signatory party to this SPPA object to any actions proposed or the manner in which the terms of the agreement are implemented, the NRCS State Conservationist and CRS shall consult with such party to resolve the objection. If the State Conservationist determines that such objection cannot be resolved, he or she will:

1. Forward all documentation relevant to the dispute, including the State Conservationist's proposed resolution, to the NRCS FPO and Senior Policy Official (SPO Deputy Chief for Science and Technology) and the ACHP. The ACHP shall provide the FPO, SPO, and State Conservationist with its advice on the resolution of the objection within thirty (30) days of receiving adequate documentation. Prior to reaching a final decision on the dispute, the NRCS shall prepare a written response that takes into account any timely advice or comments regarding the dispute from the ACHP and any signatory or consulting parties, and provide them with a copy of this written response. The NRCS will then proceed according to its final decision.

2. If the ACHP does not provide its advice regarding the dispute within the thirty (30) day time period, the NRCS may make a final decision on the dispute and proceed. Prior to reaching such a final decision, the NRCS shall prepare a written response that takes into account any timely comments regarding the dispute from the signatories and consulting parties, and provide them and the ACHP with a copy of the written response.

b. The NRCS Alaska Office responsibility to carry out all other actions subject to the terms of this agreement that are not the subject of the dispute remains unchanged.

c. Any consulting party to this SPPA may request the ACHP provide its advisory opinion regarding the substance of any finding, determination, or decision regarding compliance with its terms.

d. At any time during the implementation of the SPPA, a member of the public may submit an objection pertaining to this agreement to the NRCS State Conservationist, in writing. Upon receiving such an objection, the State Conservationist shall notify the NRCS SPO and FPO, the SHPO, Alaska Native Tribe(s), and ANCSA Corporations(s), take the objection into account, and consult with other consulting parties as appropriate to resolve the objection. The NRCS State Conservationist shall notify the SPO, FPO, SHPO, Alaska Native Tribe(s), and ANCSA Corporation(s) of the outcome of this process.

IX. Public Involvement

The NRCS State Conservationist will ensure the public is involved in the development of this SPPA and participates in Section 106 review as set forth above in Section V (reference to other parties).

X. Annual reporting and monitoring.

a. Every year following the execution of this agreement, commencing December 1, 2017, until it expires or is terminated, the NRCS Alaska State Conservationist shall provide all consulting parties (including those parties who participate in the consultation but do not sign the agreement) and the FPO a summary report detailing work undertaken pursuant to its terms, including a list of undertakings falling under Appendix C as well as undertakings that required further review; a summary of the nature and content of meetings held with the SHPO, Alaska Native Tribe(s), ANCSA Corporation(s); and an assessment of the overall effectiveness of the SPPA. Such report shall include any scheduling changes proposed, any problems encountered, and any disputes and objections received in the NRCS' efforts to carry out the terms of this agreement.

1. The NRCS FPO shall use the state reports to provide, through the NRCS SPO, an annual report to the ACHP.

2. The State Conservationist shall use the state report to assess the need for annual meetings with the SHPO, Alaska Native Tribes, ANCSA Corporations each fiscal year.

b. The State Conservationist will participate in an annual review with the NRCS Regional Conservationist regarding the effectiveness of the prototype agreement and submit a written (email) report following this review to the SPO (Deputy Chief for Science and Technology).

c. The NRCS State Conservationist, SHPO, Alaska Native Tribes, or ANCSA Corporations may request that the ACHP participate in any annual meeting or agreement review.

XI. Compliance with applicable State law and Tribal law (when on Tribal lands).

The NRCS shall comply with relevant and applicable state law, including permit requirements on state land, and with relevant and applicable tribal law, when on tribal lands.

XII. Duration of Prototype Agreement.

This SPPA will be in effect for 10 years from the date of execution unless amended or terminated pursuant to Stipulation XIII below.

XIII. Amendment and termination.

a. This SPPA may be amended if agreed to in writing by all signatories. The amendment will be effective on the date a copy, signed by all of the signatories, is filed with the NRCS FPO, SPO, and the ACHP.

b. If any signatory to this SPPA, or the ACHP, determines that its provisions will not or cannot be carried out, that party shall immediately consult with the other parties to attempt to develop an amendment per Stipulation XII.A. If within 30 calendar days, or other time period agreed upon by the signatories, an amendment cannot be agreed upon, any signatory or the ACHP may terminate the agreement upon written notification to the other signatories.

c. If this SPPA is terminated, or expires without being extended via the amendment process described above, and prior to continuing work on any undertaking, the NRCS shall comply with 36 CFR Part 800 for all individual undertakings in Alaska.

d. The NRCS will consider requests from other USDA agencies to become a signatory to the SPPA following formal written requests and appropriate discussion with and approval by the NRCS FPO and SPO, and joint USDA Agency -NRCS State Office consultation with the ACHP, NCSHPO, and Alaska Native Tribes/THPOs or ANCSA Corporations, and other consulting parties, as appropriate. Such inclusion of the USDA agency may require amendment to this SPPA.

Execution of this SPPA by the NRCS and the SHPO, and implementation of its terms evidence that NRCS has taken into account the effects of its undertakings in Alaska on historic properties and afforded the ACHP a reasonable opportunity to comment.

APPENDIX B

ACHP LETTER NOVEMBER 21, 2014

Milford Wayne Donaldson, FAIA
Chairman

Clement A. Price, Ph.D.
Vice Chairman

John M. Fowler
Executive Director

Preserving America's Heritage

November 21, 2014

Jason Weller, Chief
Natural Resources Conservation Service
United States Department of Agriculture
1400 Independence Avenue, SW, Room 5105-A
Washington, DC 20250

Ref: Prototype Programmatic Agreement for NRCS

Dear Chief Weller:

Since 2009, the Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture (USDA), has been working with the Advisory Council on Historic Preservation (ACHP) to develop a prototype programmatic agreement (PPA) that would provide NRCS with the ability to comply with the requirements of Section 106 of the National Historic Preservation Act (NHPA) while carrying out NRCS' mission of providing financial and technical assistance to agricultural producers (farmers, ranchers, and forest landowners) who voluntarily seek such assistance in order to make conservation improvements and address conservation concerns on their land. The PPA provides a framework for NRCS to develop state by state agreements that would expedite Section 106 compliance for routine activities, while still providing flexibility for conservation partners and stakeholders in coordinating historic preservation reviews.

Accordingly, I hereby designate the attached document as a PPA under 36 CFR § 800.14(b)(4) of the regulations implementing Section 106, "Protection of Historic Properties" (36 CFR Part 800). The PPA was developed by NRCS with input from the ACHP, the National Conference of State Historic Preservation Officers (NCSHPO), individual State Historic Preservation Officers (SHPOs), Tribal Historic Preservation Officers (THPOs), federally recognized Indian tribes, Native Hawaiian organizations (NHOs), and historic preservation organizations (e.g., the National Trust for Historic Preservation, the Society for Historical Archaeology, the Society for American Archaeology), tribal membership organizations (e.g., the United South and Eastern Tribes), and other interested parties. It addresses NRCS' responsibilities under Section 106 for its conservation programs, and enables streamlining of Section 106 reviews by establishing review protocols, creates greater predictability in costs and time for consultation, and provides the flexibility to address specific situations and conditions to resolve adverse effects to historic properties. This PPA provides NRCS with a valuable tool to assist it in meeting its responsibilities under Section 106 as it continues to provide assistance and funding to farmers, ranchers, and forest landowners for their conservation improvements.

This PPA replaces the 2002 nationwide "Programmatic Agreement among the United States Department of Agriculture Natural Resources Conservation Service, the Advisory Council on Historic Preservation,

ADVISORY COUNCIL ON HISTORIC PRESERVATION

401 F Street NW, Suite 308 • Washington, DC 20001
Phone: 202-517-0200 • Fax: 202-517-6381 • achp@achp.gov • www.achp.gov

and the National Conference of State Historic Preservation Officers relative to Conservation Assistance,” as amended in 2011 and 2012, which will expire on November 20, 2014. Existing State Level Agreements with SHPOs and Consultation Protocols with Tribal Nations, THPOs or NHOs developed pursuant to the 2002 amended nationwide Programmatic Agreement shall be void upon expiration of the nationwide Programmatic Agreement.

NRCS has many programs, practices, activities, and special initiatives that are implemented to address specific conservation issues. Not all states use the same programs and practices, activities and special initiatives; therefore, provisions within the PPA may be modified to allow states to focus on specific concerns and improve the management of effects to historic properties. When modifying the PPA at the state level, NRCS, SHPOs, THPOs, tribes, and NHOs should focus only on modifications that would further tailor historic preservation reviews to unique circumstances within a specific state. These areas include:

- Timeframes and communication methods,
- The roles and responsibilities of the PPA’s signatories,
- References to applicable local and state laws, and
- A list of undertakings with little or no potential to affect historic properties, thus requiring no further Section 106 consultation with the relevant SHPO/Indian tribe/NHO.

The introductory “Whereas clauses” should remain unchanged and other stipulations within the PPA should be retained, with appropriate details added, as they reflect understandings between NRCS and the ACHP that were critical in developing the framework for this tool. Modifications to those sections in the attached PPA identified above will not change the status of the document as a PPA, so long as the modifications (1) are agreed to by NRCS and the relevant SHPO/Indian tribe/THPO/NHO, and (2) do not substantially change the consultative role given to other consulting partners.

Adoption of a PPA by a state is voluntary. That is, states may elect to implement the PPA or comply with the Section 106 regulations, 36 CFR Part 800. While the PPA offers a number of efficiencies to NRCS, SHPOs, and THPOs, if the required signatories in a given state choose not to adopt the PPA, NRCS must fulfill its Section 106 responsibilities for its individual undertakings through compliance with the requirements of 36 CFR Part 800.

NRCS must provide a signed copy of each state PPA to the NRCS Federal Preservation Officer (FPO), SHPO/Indian tribe/THPO/NHO, and any other signatories to the PPA. The ACHP is not required sign the PPA; however, all executed PPAs must also be filed with the ACHP prior to their use. This will enable the ACHP to monitor the effectiveness of the PPA and engage NRCS in future discussions regarding any necessary changes or additions to the PPA based on patterns and trends.

We appreciate NRCS’ cooperation and ongoing support of historic preservation initiatives. We are particularly appreciative of the efforts of NRCS’ Senior Policy Official, Dr. Wayne Honeycutt, Ecological Sciences Director, Terrell Erickson, FPO, Sarah Bridges, and NRCS’ Cultural Resources Specialists and Coordinators, particularly in Wyoming and South Dakota. Their contributions were invaluable.

We look forward to working with NRCS as a partner in this important interagency agreement.

Sincerely,

A handwritten signature in black ink that reads "Milford Wayne Donaldson". The signature is written in a cursive style with a long, sweeping underline.

Milford Wayne Donaldson, FAIA
Chairman

 Sarah Bridges, FPO and National Cultural Resources Specialist

APPENDIX C

LIST OF UNDERTAKINGS REQUIRING NO FURTHER SECTION 106 REVIEW IN NRCS ALASKA STATE OFFICE

Pursuant to Stipulation V.a. above, in consultation with the SHPO and the NRCS, through the qualified [CRS/Archaeologist/Historian] as described in Stipulation II.b., has determined that the following undertakings have little or no potential to affect historic properties. The NRCS is not required to consult further with the SHPO under Section 106 for any undertaking that is included in this appendix.

General conditions of exempted categories also include:

National Cooperative Soil Survey and National Resource Inventory (NRI) program activities that involve no ground disturbance or are limited to small scale field investigations such as shovel holes, auger holes, probe holes, and/or core holes. Larger scale field investigations such as soil investigation pits (excavated either by hand or with a backhoe), however, may have a potential to affect historic properties and therefore are not exempt.

Flood damage repairs to roads, bridges, water control structures, or dams when the facility is not of historic significance and the rehabilitation is the previously disturbed area.

Removal of modern dumps not associated with historic properties and which are younger than 50 years of age.

Removal of non-historic structures or buildings (i.e., less than 50 years old) where there will be no ground disturbance.

The following is the list of exempted conservation practices that do not need to be evaluated on a case by case basis as long as the described conditions for exemption are met. These practices have little or no potential to affect historic properties. If conditions do not meet the parameters as stated in the fourth column, they are considered “non-exempt.” Trained NRCS Field Office personnel will determine whether a planned practice is an exempt undertaking with the potential to affect historic properties by referencing the list of exempted practices and confirming that all described conditions are met, and that there is no potential to affect historic properties. The decision to exclude an undertaking (practice) from review will be documented in the cooperator’s case file and the practice may proceed without consultation. Note that these practices are not “exempt” from Tribal Consultation unless there is a consultation agreement between NRCS and the Tribe with (traditional use) interest in the area where the practices are planned.

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
309	Agrichemical Handling Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
310	Bedding (Ac.)	X	
311	Alley Cropping (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
313	Waste Storage Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
314	Brush Management (Ac.)		Mowing, flailing or spraying to prevent the encroachment of weeds except in culturally sensitive areas
315	Herbaceous Weed Control		Mechanical, biological, or chemical control of pests except in culturally sensitive areas
316	Animal Mortality Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
317	Composting Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
318	Short Term Storage of Animal Waste and Byproducts (Cb. Yds.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
319	On-farm Secondary Containment Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
320	Irrigation Canal or Lateral (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
322	Contour Buffer Strips (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
324	Deep Tillage (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
325	Seasonal Tunnel System for Crops (Sq. Ft.)		Drilled or pounded posts or soil disturbance limited to previously disturbed land.
326	Clearing and Snagging (Ft.)	X	
327	Conservation Cover (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
328	Conservation Crop Rotation (Ac.)	X	
329	Residue and Tillage Management, No-Till (Ac.)	X	
330	Contour Farming (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
331	Contour Orchard and Other Perennial Crops (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
340	Cover Crop (Ac.)	X	
342	Critical Area Planting (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
345	Residue and Tillage Management, Reduce Till (Ac.)	X	

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
351	Water Well Decommissioning (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
353	Monitoring Well (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
355	Ground Water Testing (No.)	X	
359	Waste Treatment Lagoon (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
360	Waste Facility Closure (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
362	Diversion (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
366	Anaerobic Digester (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
367	Roofs and Covers (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
371	Air Filtration and Scrubbing (No.)	X	
372	Combustion System Improvement (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
373	Dust Control on Unpaved Roads and Surfaces (Sq. Ft.)	X	

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
374	Farmstead Energy Improvement (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time or Farmstead is listed on NRHP.
375	Dust Control from Animal Activity on Open Lot Surfaces (Ac.)	X	
379	Multi-Story Cropping (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
380	Windbreak/Shelterbelt Establishment (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
381	Silvopasture Establishment (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
382	Fence (Ft.)		Drilled or pounded posts, or rebuilding and repair of existing fence with no blading of the fence line.
383	Fuel Break (Ac.)	X	
384	Woody Residue Treatment (Ac.)	X	
386	Field Border (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
388	Irrigation Field Ditch (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
390	Riparian Herbaceous Cover (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
391	Riparian Forest Buffer (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
393	Filter Strip (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
394	Firebreak (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
395	Stream Habitat Improvement and Management (Ac.)	X	If little or no site disturbance is required.

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
396	Aquatic Organism Passage (Mi.)		No additional ground disturbance.
398	Fish Raceway or Tank (Ft and Cubic Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
400	Bivalve Aquaculture Gear and Biofouling Control (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
412	Grassed Waterway (Ac.)		On previously disturbed areas and where the excavation not to exceed 18 inches.
422	Hedgerow Planting (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
428	Irrigation Ditch Lining (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
430	Irrigation Pipeline (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
432	Dry Hydrant (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
436	Irrigation Reservoir (Ac. Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
441	Irrigation System, Microirrigation (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
442	Sprinkler System (Ac)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
443	Irrigation System, Surface and Subsurface (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
447	Irrigation System, Tailwater Recovery (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
449	Irrigation Water Management (Ac.)	X	
450	Anionic Polyacrylamide (PAM) Erosion Control (Ac.)	X	

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
460	Land Clearing (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
462	Precision Land Forming (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
464	Irrigation Land Leveling (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
466	Land Smoothing (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
468	Lined Waterway or Outlet (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
472	Access Control (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
484	Mulching (Ac.)	X	
490	Tree/Shrub Site Preparation (Ac.)		Chemical and scalping only, except if practice installation doesn't extend beyond the previously disturbed/tilled soil zone.
500	Obstruction Removal (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
511	Forage Harvest Management (Ac.)	X	
512	Forage and Biomass Planting (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
516	Livestock Pipeline (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
521A	Pond Sealing or Lining, Flexible Membrane (No.)	X	
521B	Pond Sealing or Lining, Soil Dispersant (No.)	X	
521C	Pond Sealing or Lining, Bentonite Sealant (No.)	X	
521D	Pond Sealing or Lining, Compacted Clay Treatment (No.)	X	

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
527	Karst Sinkhole Treatment (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
528	Prescribed Grazing (Ac.)	X	
533	Pumping Plant (No.)		If minimal disturbance of install pad for pump.
548	Grazing Land Mechanical Treatment (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
550	Range Planting (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
554	Drainage Water Management (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
555	Rock Barrier (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
557	Row Arrangement (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
558	Roof Runoff Structure (No.)	X	
560	Access Road (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
561	Heavy Use Area Protection (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
562	Recreation Area Improvement (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
566	Recreation Land Grading and Shaping (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
570	Stormwater Runoff Control (No. and Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
572	Spoil Spreading (Ac.)	X	
575	Trails and Walkways (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
576	Livestock Shelter Structure (No.)		Drilled or pounded posts, or rebuilding and repair of existing Livestock Structure with no blading of the fence line.

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
578	Stream Crossing (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
580	Stream Bank and Shoreline Protection (Ft.)		If little or no site disturbance is required
584	Channel Bed Stabilization (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
585	Strip Cropping (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
587	Structure for Water Control (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
588	Cross Wind Ridges (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
589C	Cross Wind Trap Strips (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
590	Nutrient Management (Ac.)	X	
591	Amendments for the Treatment of Agricultural Waste (AU)	X	
592	Feed Management (No. of Systems and AUs Affected)	X	
595	Integrated Pest Management (Ac.)		Mechanical, biological, or chemical control of pests except in culturally sensitive areas
601	Vegetative Barriers (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
603	Herbaceous Wind Barriers (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
606	Subsurface Drain (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
609	Surface Roughening (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
612	Tree/Shrub Establishment (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or hand or machine planting with disturbance not to exceed one foot in depth.
614	Watering Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
629	Waste Treatment (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
632	Waste Separation Facility (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
633	Waste Recycling (Ac.)	X	
634	Waste Transfer (No.)	X	
635	Vegetative Treatment Area (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
640	Water Spreading (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
642	Water Well (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
643	Restoration and Management of Rare and Declining Habitats (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time. Poles installed for habitat may be installed in undisturbed areas.
644	Wetland Wildlife Habitat Management (Ac.)	X	
645	Upland Wildlife Habitat Management (Ac.)	X	
646	Shallow Water Development and Management (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
647	Early Successional Habitat Development/Management (Ac.)	X	
649	Structures for Wildlife (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
650	Windbreak/Shelterbelt Renovation (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
654	Road / Trail / Landing Closure and Treatment (Ft.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
655	Forest Trails and Landings (Ac.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time.
656	Constructed Wetland (Ac.)		Mowing, flailing or spraying to prevent the encroachment of weeds except in culturally sensitive areas

Exempt Undertakings For Practices not on Tribal Lands

PS #	PRACTICE NAME	EXEMPT	EXEMPT UNDER THE FOLLOWING CONDITIONS
657	Wetland Restoration (Ac.)		Limited to vegetative enhancement &/or hydrologic enhancement with little or no soil disturbance.
659	Wetland Enhancement (Ac.)		Limited to vegetative enhancement &/or hydrologic enhancement with little or no soil disturbance.
660	Tree/Shrub Pruning (Ac.)	X	
666	Forest Stand Improvement (Ac.)	X	
670	Lighting System Improvement (No.)		As long as building is not listed on NRHP and the building is 49 years old or less.
672	Building Envelope Improvement (No.)		When practice installation doesn't extend beyond the previously disturbed/tilled soil zone, or doesn't result in surface disturbance for the first time, or building is not listed on NRHP and the building is 49 years old or less.

APPENDIX D

GLOSSARY OF ABBREVIATIONS AND ACRONYMS USED IN THIS DOCUMENT

ACHP	Advisory Council on Historic Preservation
APE	Area of Potential Effects—from ACHP regulations 36 CFR Part 800
CEQ	Council on Environmental Quality
CRS	Cultural Resources Specialist
DHS	Department of Homeland Security
EWP	Emergency Watershed Program (NRCS program)
FEMA	Federal Emergency Management Agency
FPO	Federal Preservation Officer (Federal Preservation Officer)
NCSHPO	National Conference of State Historic Preservation Officers
NEPA	National Environmental Policy Act
NHL(s)	National Historic Landmark(s)
NHPA	National Historic Preservation Act
NHQ	National Headquarters
NRCS	Natural Resources Conservation Service
NRHP	National Register of Historic Places
SHPO	State Historic Preservation Officer
SPO	Senior Policy Official (NRCS)
THPO	Tribal Historic Preservation Officer
USDA	United States Department of Agriculture
