

**NATURAL RESOURCES CONSERVATION SERVICE
STATEMENT OF WORK**

FIELD BORDER

(Acres)

CODE 386

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.

DESIGN (PLANNING REQUIREMENTS)

Deliverables

1. Complete documentation to support Colorado NRCS criteria and compatibility with other planned and applied practices.
 - a. Document the practice purpose(s) as identified in the conservation plan.
 - b. List all required and/or facilitating practices to be planned and applied.
 - c. Document compliance with NRCS national and state utility safety policy (NEM part 503-Safety, Section 503.00 through 503.22)
 - d. Document criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Border width and lengths;
 - ii. Vegetative species selection and planting/seeding rate;
 - iii. Site and seedbed preparation required;
 - iv. Erosion calculations, and;
 - v. Wildlife considerations.
2. Provide written plans and specifications to the client including sketches and drawings that adequately describe the requirements to install the practice and obtain necessary permits. Develop plans and specifications in accordance with the Field Border, 386 Conservation Practice Standard.
3. Record practice specifications on the Field Border, Code 386 Conservation Practice Job Sheet, 2004.
4. Complete form CO-ECS-5, Grass Seeding Planned and Applied.
5. Provide a written operation and maintenance plan.
6. Provide written certification that the design meets practice standard criteria and complies with applicable laws and regulations.
7. Plan and implement the Nutrient Management, Code 590 Conservation Practice Standard, 2004, as applicable.
8. Complete Cultural Resources Site Review and Documentation Form (CO-SSC-1), and New Site Report Form (CO-SSC-2), as applicable.
9. Design modifications during application as required.

INSTALLATION

Deliverables

1. Conduct a pre-application conference with the client.
2. Stake and layout the design according to plans and specifications including applicable layout notes.
3. Provide application guidance as needed.
4. Facilitate and implement any required design modifications with the client and the original designer.
5. Advise the client/NRCS on compliance issues with all Federal, state, tribal, and local laws, regulations and NRCS policies during the application.

CHECK OUT

Deliverables

1. Provide records of the installation including:
 - a. The extent of application, and;
 - b. Actual materials used including originals or copies of seed tags and sales receipts to determine compliance with the Colorado Seed Law and actual amounts of seed applied.
2. Provide certification that the application meets NRCS standards and specifications and complies with all applicable permits.
3. Complete progress reporting.
