

STATEMENT OF WORK
Waste Utilization
Code (633)

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices, including:
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client, along with other participant (client) responsibilities (Reference Form CO-ENG-13, Notification of Participant Responsibilities)
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Results of applicable sampling, analyses and tests provided by the client;
 - ii. Planned waste utilization; and
 - iii. Additional requirements applicable to manure or organic materials, non-point source pollution, soil condition, and air quality.
2. Written waste utilization plan and specifications including job sheets and record keeping sheets as appropriate shall be provided to the client that adequately describes the requirements to implement the practice and obtain necessary permits.
3. Operation and maintenance plan.
4. Certification of nutrient management plan by a certified nutrient management specialist that the plan meets conservation practice standard 590 criteria and complies with applicable laws and regulations if land applied.
5. Plan modifications during implementation as required.

INSTALLATION

Deliverables:

1. Pre-application conference with client (Reference Form CO-ENG-13, Notification of Participant Responsibilities).
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meets design and permit requirements.

CHECK OUT

Deliverables:

1. Records of application including extent and location of practice units applied.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Complete nutrient management plan according to Conservation Practice 590 – Nutrient Management.
4. Progress reporting
