

STATEMENT OF WORK
Residue and Tillage Management – Mulch Till (345)
Florida

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in Florida NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans, specifications and operation and maintenance plan including but not limited to:
 - i. Results of NRCS erosion prediction tools or equivalent, and other applicable technical tools to address targeted criteria
 - ii. Planned residue amount after each operation
 - iii. Type of soil disturbing operations used
 - iv. Timing of soil disturbance
 - v. Other requirements of the conservation practice standard Residue and Tillage Management, Mulch Till, Code 345
2. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
3. Design modifications during application as required
4. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
6. Certification that the application process meets design and permit requirements

CHECK OUT

Deliverables / Practice Certification and Check-out Requirements

1. Records of application for certification:
 - a. Extent of practice units applied in acres
 - b. Actual amount of residue remaining after planting
 - c. Type of soil disturbing operations used
 - d. Date of soil disturbing operations
 - e. Percent residue after each operation
2. Certification that the application meets Florida NRCS standards and specifications and is in compliance with permits
3. Progress reporting
