

STATEMENT OF WORK
Land Clearing (460)
Hawaii

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables

All design documents shall be developed in accordance with the requirements of the [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#), Section IV, Conservation Practice Standard and the Conservation Practice Specification.

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Determination of appropriate method, intensity and timing to efficiently and safely remove trees, stumps and other vegetation.
 - ii. Designating appropriate setbacks from wetlands, water bodies and streams.
 - iii. Mitigation of erosion, runoff, soil compaction and soil displacement to acceptable levels during the transition period to the desired land use.
 - iv. *Estimated Cost*.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Operation and Maintenance Plan: *The [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#), Section IV, Operation and Maintenance Guide for the practice shall be completed and used as the Operation and Maintenance Plan.*
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-installation conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

**STATEMENT OF WORK
Land Clearing (460)
Hawaii**

CHECK OUT

Deliverables

1. Records of application.
 - a. Extent of practice units applied.
 - b. Actual mitigation measures used and applied.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits ([NEM Subpart A, 505.03 \(c\) \(1\)](#)).
3. Progress reporting.
