

STATEMENT OF WORK
Conservation Crop Rotation (328)
Kansas
May 2004

State contact: James Krueger, State Resource Conservationist, 785-823-4547, james.krueger@ks.usda.gov

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.

DESIGN

Deliverables

1. Pre-design conference with client
2. Design documents that demonstrate criteria in Natural Resources Conservation Service (NRCS) practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. List all required and/or facilitating practices
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to crop sequence, length of the crop rotation, soil quality considerations, and nutrient and pest management considerations
3. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describe the requirements to apply the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of Conservation Practice Standard 328, Conservation Crop Rotation using Form KS-ECS-328, Conservation Crop Rotation Plan - 328.
4. Operation and maintenance plan
5. Certification that the design meets practice standard and specification criteria will be documented on Form KS-ECS-328
6. Compliance with all federal, state, tribal, and local laws and regulations and NRCS policies and will be documented on Form KS-CPA-52, Environmental Effects for Conservation Planning.
7. Design modifications during application as required
8. Progress reporting
9. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during application
6. Certification that the application process and materials meet design and permit requirements

STATEMENT OF WORK
Conservation Crop Rotation (328)
Kansas
May 2004

CHECKOUT

Deliverables

1. Records of application
 - a. Extent of practice units applied
 - b. Crops actually planted
 - c. Soil conditioning index calculations
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting
