

**ENVIRONMENTAL EVALUATION WORKSHEET**

**A. Client Name:**

**B. Conservation Plan ID # (as applicable):**  
**Program Authority (optional):**

**D. Client's Objective(s) (purpose):**  
 Client is interested in utilizing sound nutrient management strategies. Requests development of a Conservation Activity Plan for Comprehensive Nutrient Management (CAP-102) to assess resources, identify areas of concern and make improvements to existing nutrient management practices.

**C. Identification # (farm, tract, field #, etc. as required):**

**E. Need for Action:**  
 Landowner has no basis for which to make decisions regarding better nutrient management practices and is searching for improvements for long term sustainability and profit.

<b>H. Alternatives</b>		
<b>No Action</b>	<input type="checkbox"/> if RMS	
Lack of a sound nutrient management plan will jeopardize long term sustainability and profitability of the farm.		
<b>Alternative 1</b>	<input type="checkbox"/> if RMS	
The CAP-102 will provide an inventory of available nutrients and the need for additional nutrients or export of nutrient to achieve optimum yield and sustainability and profitability of the farm.		
<b>Alternative 2</b>	<input type="checkbox"/> if RMS	

**Resource Concerns**

In Section "F" below, analyze, record, and address concerns identified through the Resources Inventory process. (See FOTG Section III - Resource Planning Criteria for guidance).

**F. Resource Concerns and Existing/ Benchmark Conditions**  
 (Analyze and record the existing/benchmark conditions for each identified concern)

<b>I. Effects of Alternatives</b>

<b>HUMAN: ECONOMIC AND SOCIAL CONSIDERATIONS</b>						
<b>Management Level</b>	Lack of utilizing basic nutrient management practices will affect both short and long term sustainability and profitability of the farm.		The CAP-102 will provide information necessary for the client to make informed decisions regarding nutrient balancing and proper utilization.			
Client has made little to no progress toward utilizing basic nutrient management practices due to lack of a plan.						
<b>Profitability</b>	Lack of utilizing nutrient management practices will likely affect the client from achieving the expected income and profit from the farm.		The CAP-102 will include an inventory of all nutrients available on the farm and the additional nutrients that are needed to achieve the full production potential, as well as recommendations to increase production and sustainability of the farm.			
Lack of utilizing nutrient mgt practices/principles restricts the client from making the right decisions/improvements affecting the potential profitability of the farm.						

**Special Environmental Concerns: Environmental Laws, Executive Orders, policies, etc.**

In Section "G" complete and attach Environmental Procedures Guide Sheets for documentation as applicable. Items with a "•" may require a federal permit or consultation/coordination between the lead agency and another government agency. In these cases, effects may need to be determined in consultation with another agency. Planning and practice implementation may proceed for practices not involved in consultation.

K. Other Agencies and Broad Public Concerns		No Action	Alternative 1	Alternative 2																											
Easements, Permissions, Public Review, or Permits Required and Agencies Consulted.		None	None																												
Cumulative Effects Narrative (Describe the cumulative impacts considered, including past, present and known future actions regardless of who performed the actions)		None	None																												
L. Mitigation (Record actions to avoid, minimize, and compensate)		None	None																												
M. Preferred Alternative	preferred alternative	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>																											
	Supporting reason		Client chooses to have a CAP-102 developed.																												
N. Context (Record context of alternatives analysis)			CAP has no effect																												
The significance of an action must be analyzed in several contexts such as society as a whole (human, national), the affected region, the affected interests, and the locality.																															
<b>O. Determination of Significance or Extraordinary Circumstances</b>																															
<p><b>Intensity:</b> Refers to the severity of impact. Impacts may be both beneficial and adverse. A significant effect may exist even if the Federal agency believes that on balance the effect will be beneficial. Significance cannot be avoided by terming an action temporary or by breaking it down into small component parts.</p> <p><b>If you answer ANY of the below questions "yes" then contact the State Environmental Liaison as there may be extraordinary circumstances and significance issues to consider and a site specific NEPA analysis may be required.</b></p>																															
<table border="0"> <tr> <td>Yes</td> <td>No</td> <td></td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Is the preferred alternative expected to cause significant effects on public health or safety?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Is the preferred alternative expected to significantly affect unique characteristics of the geographic area such as proximity to historic or cultural resources, park lands, prime farmlands, wetlands, wild and scenic rivers, or ecologically critical areas?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Are the effects of the preferred alternative on the quality of the human environment likely to be highly controversial?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Does the preferred alternative have highly uncertain effects or involve unique or unknown risks on the human environment?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Does the preferred alternative establish a precedent for future actions with significant impacts or represent a decision in principle about a future consideration?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Is the preferred alternative known or reasonably expected to have potentially significant environment impacts to the quality of the human environment either individually or cumulatively over time?</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input checked="" type="checkbox"/></td> <td>• Will the preferred alternative likely have a significant adverse effect on ANY of the special environmental concerns? <input type="checkbox"/>	<input checked="" type="checkbox"/>	• Will the preferred alternative threaten a violation of Federal, State, or local law or requirements for the protection of the environment?																													
<b>P. To the best of my knowledge, the data shown on this form is accurate and complete:</b>																															
In the case where a non-NRCS person (e.g. a TSP) assists with planning they are to sign the first signature block and then NRCS is to sign the second block to verify the information's accuracy.																															
<input type="text"/> <b>Signature (TSP if applicable)</b>		<input type="text"/> <b>Title</b>		<input type="text"/> <b>Date</b>																											
<input type="text"/> <b>Signature (NRCS)</b>		<input type="text"/> <b>Title</b>		<input type="text"/> <b>Date</b>																											
If preferred alternative is not a federal action where NRCS has control or responsibility and this NRCS-CPA-52 is shared with someone other than the client then indicate to whom this is being provided.																															

**The following sections are to be completed by the Responsible Federal Official (RFO)**

NRCS is the RFO if the action is subject to NRCS control and responsibility (e.g., actions financed, funded, assisted, conducted, regulated, or approved by NRCS). These actions do not include situations in which NRCS is only providing technical assistance because NRCS cannot control what the client ultimately does with that assistance and situations where NRCS is making a technical determination (such as Farm Bill HEL or wetland determinations) not associated with the planning process.

Q. NEPA Compliance Finding (check one)		Action required
<input type="checkbox"/>	1) is <b>not a federal action</b> where the agency has control or responsibility.	Document in "R.1" below. No additional analysis is required
<input checked="" type="checkbox"/>	2) is a federal action <b>ALL</b> of which is <b>categorically excluded</b> from further environmental analysis <b>AND</b> there are <b>no extraordinary circumstances as identified in Section "O"</b> .	Document in "R.2" below. No additional analysis is required
<input type="checkbox"/>	3) is a federal action that has been <b>sufficiently analyzed</b> in an existing Agency state, regional, or national NEPA document <b>and</b> there are no predicted <u>significant adverse environmental effects or extraordinary circumstances</u> .	Document in "R.1" below. No additional analysis is required.
<input type="checkbox"/>	4) is a federal action that has been sufficiently analyzed in another Federal agency's NEPA document (EA or EIS) that addresses the proposed NRCS action and its' effects <b>and has been formally adopted by NRCS</b> . NRCS is required to prepare and publish its own Finding of No Significant Impact for an EA or Record of Decision for an EIS when adopting another agency's EA or EIS document. <b>(Note: This box is not applicable to FSA)</b>	Contact the State Environmental Liaison for list of NEPA documents formally adopted and available for tiering. Document in "R.1" below. No additional analysis is required
<input type="checkbox"/>	5) is a federal action that has <b>NOT</b> been sufficiently analyzed or may involve predicted significant adverse environmental effects or extraordinary circumstances and may require an EA or EIS.	Contact the State Environmental Liaison. Further NEPA analysis required.

**R. Rationale Supporting the Finding**

<b>R.1</b> Findings Documentation	
<b>R.2</b> Applicable Categorical Exclusion(s) <b>(more than one may apply)</b>  7 CFR Part 650 <i>Compliance With NEPA</i> , subpart 650.6 <i>Categorical Exclusions</i> states prior to determining that a proposed action is categorically excluded under paragraph (d) of this section, the proposed action must meet six sideboard criteria. See NECH 610.116.	(3) Inventories, research activities, and studies, such as resource inventories and routine data collection when such actions are clearly limited in context and intensity;

***I have considered the effects of the alternatives on the Resource Concerns, Economic and Social Considerations, Special Environmental Concerns, and Extraordinary Circumstances as defined by Agency regulation and policy and based on that made the finding indicated above.***

**S. Signature of Responsible Federal Official:**

<input type="text"/>	<input type="text"/>	<input type="text"/>
Signature	Title	Date

**Additional notes**
