

STATEMENT OF WORK
Residue Management – Ridge Till (346)
Kentucky

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Practice standard criteria-related computations and analyses to develop plans, specifications and operation and maintenance plan including but not limited to:
 - i. Results of NRCS erosion prediction tools or equivalent, and other applicable technical tools to address targeted criteria.
 - ii. Planned residue amount.
 - iii. Orientation of residue.
 - iv. Distribution of residue.
 - v. Timing of soil disturbance.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed on the appropriate job sheet in accordance with the conservation practice standard Residue Management – Ridge Till (Code 346).
3. Identify practice location on a plan map complete with Legend, Scale, Field #, Acres and Land Use.
4. Certification that the design meets practice standard criteria and complies with applicable laws, regulations, and program guidelines.
5. Design modifications during application as required.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Application guidance as needed.
4. Facilitate and implement required design modifications with client and original designer.
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
6. Certification that the application process meets design, permit, and applicable program requirements.

CHECK OUT

Deliverables

1. Records of application.
 - a. Extent of practice units applied.
 - b. Actual amount of residue present during critical period to meet targeted standard criteria.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits and applicable program requirements.
3. Progress reporting.
