## **Field Office and TSP Certification Plan Review Checklist**

### **Conservation Activity Plan – Forest Management Plan Practice Activity Code (106)**

**Purpose:** The purpose of the checklist is to provide guidance for elements that need to be addressed or included in the Conservation Activity Plan (CAP). The checklists are recommended for use by NRCS staff and Technical Service Providers, but are not required. NRCS staff can use the checklist for administrative review of the sample plans submitted as part of the certification process as well as all other plans submitted after a TSP is certified. TSPs can use the checklist for a general guidance of elements to include in the plan, but it is still the TSP's responsibility to follow the CAP Plan Development Criteria for specific elements and the detail of each element to be included.

#### **Instructions:**

- **Certified TSP's** should submit the completed checklist, hardcopy and electronic copy of the client's plan to the local NRCS Field Office for administrative review.
- **NRCS Staff** should complete the checklist for administrative review and place the completed checklist in the client's file. Administrative review involves a review of the content of the plan to ensure all required elements are present, but does not involve technical review for correctness. (Please Note: If technical review is needed, the completed checklist and client plan should be forwarded to the TSP State Coordinator for technical review.)

## Forest Management Plan

**State/County:**

**Date Plan Submitted:**

**Producer/Owner:**

**Technical Service Provider:**

**A Forest Management Plan (FMP)** is a site specific plan developed for a client, which addresses one or more resource concerns on land where forestry-related conservation activities or practices will be planned and applied.

Technical Guidance, Criteria, and Content for the FMP is found at the URL:

[http://efotg.sc.egov.usda.gov/references/public/ME/CAP\\_106\\_Forest\\_Management\\_Plan\\_Criteria.pdf](http://efotg.sc.egov.usda.gov/references/public/ME/CAP_106_Forest_Management_Plan_Criteria.pdf)

**Minimum components of a Forest Management Plan (FMP) shall include:**

**1. Background and site information: This element provides a brief description of:**

- a. Landowner information-name, address, operation, size;
- b. Location and plan map of parcel;
- c. Documentation of existing practices;
- d. Past harvest history;
- e. Identification of resource concerns.

**2. Client Objectives, which may include these considerations and others:**

- a. Expected income;
- b. Forest stand improvement;
- c. Wildlife habitat/riparian areas;
- d. Recreation;
- e. Agroforestry;
- f. Pollinator habitat and protection.

**3. Existing Conditions:**

Identify resource concerns based on an inventory to assess these concerns and opportunity for treatment. The inventory will typically include:

- a. Description of the inventory process (Refer to Maine [Forestry Inventory Criteria](#));
- b. Forest management unit and stand boundaries;
- c. Site index, basal area, species and size class;
- d. Potential woodland products, soil conditions, slopes, topography and aspect;
- e. Natural and cultural features;
- f. Roads and wildfire risk (surface and crown fires);
- g. Risk of insect and disease infestation;
- h. Fish and wildlife species and habitat elements;
- i. Noxious and invasive species;
- j. Water quality and other important features as applicable.

**4. Desired Future Conditions:**

Goals such as stocking, trees per acre, basal area, species composition, wildlife, pollinator habitat and protection, recreation, etc. for stands where practices/activities are to be implemented to meet future goals.

<b>5.</b>	<b>Forest Management Plan Documentation:</b>																																												
	1. Cover page with signature blocks.																																												
	2. Forest management plan map including boundaries, fields/stands, scale, north arrow, stand boundaries and appropriate map symbols.																																												
	3. Soils map including legend, interpretations, and suitability index for forest activities. The Web Soil Survey can provide the needed information: <a href="http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm">http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm</a>																																												
	4. A wetland delineation map and associated wetland compliance documentation (Food Security Act of 1985), if applicable.																																												
	5. Resource Assessment Results (wind and water erosion, water availability, soil fertility, etc... <b>WHEP</b> only if wildlife is a resource concern identified within the CAP 106)																																												
	6. Conservation plan ( <a href="#">record of decisions</a> ) ( <i>MS Word Document or the national common forest management plan template</i> ) to include: <ul style="list-style-type: none"> <li>a. Planned practice (s) with NRCS practice name(s) and codes;</li> <li>b. Amounts to be applied in NRCS practice units (no.), (ft), (ac);</li> <li>c. Schedule for implementation;</li> <li>d. Primary NRCS forestry and agroforestry practices-When any of the following practices are used in this plan, the site specific specifications shall be developed in the template, NRCS approved Jobsheet or separate plan. <table border="1" data-bbox="407 942 1300 1287"> <thead> <tr> <th>Code</th> <th>Practice Name</th> </tr> </thead> <tbody> <tr><td>380</td><td>Windbreak/Shelterbelt Establishment</td></tr> <tr><td>394</td><td>Firebreak</td></tr> <tr><td>472</td><td>Access Control</td></tr> <tr><td>490</td><td>Tree/Shrub Site Preparation</td></tr> <tr><td>612</td><td>Tree/Shrub Establishment</td></tr> <tr><td>655</td><td>Forest Trails and Landings</td></tr> <tr><td>660</td><td>Tree/Shrub Pruning</td></tr> <tr><td>666</td><td>Forest Stand Improvement</td></tr> </tbody> </table> </li> <li>e. Additional practices may be needed to meet all the landowner's objectives. For the following practices the plan must include the planned amount, fields where the practice is to be applied and the planned year of application. <table border="1" data-bbox="407 1461 1300 1955"> <thead> <tr> <th>Code</th> <th>Practice name</th> </tr> </thead> <tbody> <tr><td>314</td><td>Brush Management</td></tr> <tr><td>315</td><td>Herbaceous Weed Control</td></tr> <tr><td>342</td><td>Critical Area Planting</td></tr> <tr><td>382</td><td>Fence</td></tr> <tr><td>395</td><td>Stream Habitat Improvement and Management</td></tr> <tr><td>560</td><td>Access Road</td></tr> <tr><td>578</td><td>Stream Crossing</td></tr> <tr><td>580</td><td>Streambank and Shoreline Protection</td></tr> <tr><td>595</td><td>Integrated Pest Management</td></tr> <tr><td>644</td><td>Wetland Wildlife Habitat Management</td></tr> <tr><td>645</td><td>Upland Wildlife Habitat Management</td></tr> <tr><td>647</td><td>Early Successional Habitat Development/Management</td></tr> </tbody> </table> </li> </ul>	Code	Practice Name	380	Windbreak/Shelterbelt Establishment	394	Firebreak	472	Access Control	490	Tree/Shrub Site Preparation	612	Tree/Shrub Establishment	655	Forest Trails and Landings	660	Tree/Shrub Pruning	666	Forest Stand Improvement	Code	Practice name	314	Brush Management	315	Herbaceous Weed Control	342	Critical Area Planting	382	Fence	395	Stream Habitat Improvement and Management	560	Access Road	578	Stream Crossing	580	Streambank and Shoreline Protection	595	Integrated Pest Management	644	Wetland Wildlife Habitat Management	645	Upland Wildlife Habitat Management	647	Early Successional Habitat Development/Management
Code	Practice Name

647	Early Successional Habitat Development/Management																																												

	NOTICE: Practices beyond the basic forestry/agroforestry practices may be included in the plan, but the design and implementation of these will be conducted by an appropriately certified TSP for those practices.
	7. For management practices include the planned practices and site specific specifications on how, when and extent (acres/number) each practice will be applied.
	8. For engineering/structural practices include when and extent each of the planned practices will be applied, also include location on the Conservation Plan Map.
<b>6.</b>	<b>Deliverables:</b>
	<ol style="list-style-type: none"> <li>1. Complete hardcopy for the client;</li> <li>2. Complete hardcopy and electronic copy of the plan for NRCS: <ol style="list-style-type: none"> <li>a.
