

STATEMENT OF WORK
Cover Crop (340)
Missouri

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN**Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose or purposes as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. List all required and/or facilitating practices
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Site and seedbed preparation
 - ii. Fertilizer and soil amendments rates and timing
 - iii. Species selection and seeding rates
 - iv. Planting method and planting date
 - v. Dates and methods to terminate cover crop
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard COVER CROP (340).
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required

INSTALLATION**Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during application
6. Certification that the application process and materials meets design and permit requirements

CHECK OUT**Deliverables**

1. Records of application
 - a. Extent of practice units applied
 - b. Actual materials used
 - c. Actual site preparation, planting methods, and dates of all operations
2. MO-CONS-10 (or equivalent) certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting
