

**NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE SPECIFICATION
RECREATION TRAIL AND WALKWAY
CODE 568**

SPECIFICATIONS

CONSTRUCTION

Walkways and trails shall be constructed to a planned grade and cross section. All drainage structures and surfacing shall be installed according to plans and detailed specifications. Safety features, including signs, guardrails, safety fences at key locations, and removal of existing fences shall be according to the plans.

**OVERALL QUALITY AND
WORKMANSHIP**

Construction operations shall be carried out in such a manner that erosion and air and water pollution are minimized and held within legal limits. The completed job shall present a workmanlike finish.
