

**PRESCRIBED GRAZING SPECIFICATION SHEET**

**3. Forage Supply:**

Management Unit (MU)	M.U. Acres	M.U. AUMs Available	M.U. Key Species	Acre/AUM	AUM/Acre
<b>TOTALS</b>					

**4. Livestock Demand:**

Animal Type	No.	AUE ea.	Total AUE	Days Grazed	AUMs Needed
<b>TOTALS</b>					

**5. Balance:**

Total AUMs Available	Total AUMs Needed	Forage Balance

**6. Prescribed Grazing System**

Stocking rates will not exceed allocated forage amounts. Plant communities are able to regrow before being re-grazed. Timing, intensity, frequency, and duration of use are modified as needed to meet vegetation objectives.

Critical period use in any grazing unit will be limited to a maximum frequency of once every other year.

Critical Period (CP)	Boot to soft-doe (or seed set) of MU key species
Grazing Unit(s) NOT grazed during CP	

Most (2/3) of the individual plants of the management unit (MU) key species will have a maximum utilization level of \_\_\_\_\_ percent or a minimum remaining stubble height of \_\_\_\_\_ inches when livestock are removed from a grazing unit.

# PRESCRIBED GRAZING SPECIFICATION SHEET

See attached grazing schedules and plan for more information.

**Additional Narrative:**

**7. Special Considerations:**

Provide additional specifications for grazing in unique and/or sensitive areas (riparian areas, critical habitat, grazed woodland, cultural resource sites, etc.).

**Additional Narrative:**

**8. Wildlife Considerations:**

Grazing management maintains enough standing forage for resident and transient wildlife use (harvest efficiency for livestock is not exceeded).

**Additional Narrative:**

**9. Threatened & Endangered Species or Species of Concern Considerations:**

Grazing schedule/plan considers and is integrated with the needs of T&E species.

**Additional Narrative:**

# PRESCRIBED GRAZING SPECIFICATION SHEET

## 10. Contingency Plan / Options

Provide for alternative sources of forage and/or roughage during periods of drought, flood, or other occurrence to prevent overuse of plant communities, degradation of ecological condition, or adverse effects to animal health.

**Additional Narrative:**

## 11. Monitoring Plan

Maintain photo point(s); take photos at a fixed site annually before and after grazing (see Range Technical Note #9; Photo Plots). Keep actual use records (unit, dates used, number of animals) and analyze results annually as needed (see Grazing Records booklet, or Exhibit 4-19, OR Amendment 1; National Range & Pasture Handbook). If needed, measure utilization or stubble height using methods in NRPH, Oregon Amendment 1, Exhibits 4-14 or 4-17.

**Additional Narrative:**

Job Title: \_\_\_\_\_

**Client's Acknowledgement Statement:**

The Client acknowledges that:

- a. They have received a copy of the specification and understand the contents and requirements.
- b. It shall be the responsibility of the client to obtain all necessary permits and/or rights, and to comply with all ordinances and laws pertaining to the application of this practice.

Accepted by: /s/ \_\_\_\_\_ Date: \_\_\_\_\_

**Certification:**

I have completed a review of the information provided by the client (or checked in the field) and certify this practice has been applied as indicated on this specification sheet.
