Cross Wind Ridges Practice Requirements

August 2002
Job Sheet
589A

Producer's Name: _____ Date: _____

Field Number: _____ Legal Description: _____

Critical Wind Erosion Management Periods For Ridge Maintenance: From _____ To _____

Prevailing Wind Direction During Critical Wind Erosion Management Period: _____

(I) Dominant Soil Series: _____
Soil Erodibility Factor: _____
Soil Loss Tolerance: _____ Tons/Ac./Yr.
Knoll Erodibility Adjusted "I": _____

(K) Soil Ridge Roughness Factor "Krd": _____
Row Direction _____
Ridge Height _____
Ridge Width _____

(C) Climatic Factor: _____

(L) Field Width (unsheltered distance): _____ (Ft.)

(V) Vegetative Cover (crop residue and amount): _____ (Lbs./Ac.)
Flat Small Grain Equivalent: _____ (Lbs./Ac.)

Equipment to be used to form ridges: _____

Crop to be planted: _____

Crop tolerance to blowing soil: _____ Tons/Ac./Yr.
