**TECHNICAL GUIDE NOTICE WY - 78**

**Purpose:** This notice transmits the following revised conservation practice standards in Section IV FOTG: Access Road 560, Closure of Waste Impoundments 360, Waste Treatment Lagoon 359, Composting Facility 317, Diversion 362, Irrigation System, Microirrigation 441, Irrigation System, Tailwater Recovery 447, Irrigation Water Management 449, Anionic Polyacrylamide (PAM) Erosion Control 450, Mine Shaft and Adit Closing 457, Pond Sealing or Lining – Flexible Membrane 521A, Pond Sealing or Lining – Soil Dispersant Treatment 521B, Pond Sealing or Lining Bentonite Treatment 521C, Irrigation Regulating Reservoir 552, Roof Runoff Structure 558, Heavy Use Protection Area 561, Streambank and Shoreline Protection 580, Watering Facility 614, Underground Outlet 620, Manure Transfer 634, Constructed Wetland 656. Closure of Waste Impoundments 360, Irrigation System, Microirrigation 441, Roof Runoff Structure 558, Watering Facility 614, are practice name changes in addition to revisions in the content of the conservation practice standard. Most of the revisions to the practice standard content is a result of changes to the National Conservation Practice Standard and recommendations from Northern Plains technical review.

**Effective Date.** This notice is effective when received.

**Filing Instructions:** Retain the outdated paper copy of your current Section IV conservation practice standard for archival purpose. The revised conservation practice standards are electronically filed in the Wyoming eFOTG. The eFOTG can be accessed using Microsoft Internet Explorer and going to <http://my.nrcs.usda.gov/>. Use your PRMS login and password to access the electronic Field Office Technical Guide as an NRCS employee. Click on the “**Technology**” tab and select **Wyoming** from the map.
