

(The information in this table indicates the dominant soil condition but does not eliminate the need for onsite investigation. The numbers in the value columns range from 0.01 to 1.00. The larger the value, the greater the limitation. See text for further explanation of ratings in this table.)

| Map symbol and soil name    | Pct. of map unit | Trench sanitary landfill                              |                      | Area sanitary landfill                             |              | Daily cover for landfill  |                              |
