

TABLE of CONTENTS
SECTION II – Soil and Site Information

SOIL and SITE INFORMATION

- Introduction
- Soil and Site Information
- Use and Explanation of Soil Interpretations
- Key Phrases Used in Soil Interpretations

Soils Legends

- Legend by Symbol
- Acreage and Proportionate Extent of Soils

Soil Descriptions

- Nontechnical Soil Descriptions
- Technical Soil Descriptions

Soil/Site Interpretations

Cropland

- Prime Farmland List
- Highly Erodible List
- Land Capability Classification and Estimated Crop and Pasture Yields Table
- RUSLE Related Attributes

Rangeland, Grazed Forestland, Native Pastureland

Forestland

- Forest Productivity
- Woodland Management

Nonagricultural

- Building Site Development
- Construction Material

Recreation

Wildlife Habitat

Pastureland and Hayland

TABLE of CONTENTS – Soil and Site Information – Continued:

Mined Land

Windbreak

Engineering

- Physical Properties of the Soils
- Chemical Properties of the Soils
- Engineering Index Properties
- Water Features
- Soil Features

Waste Disposal

- Sanitary Facilities
- Agriculture Waste Management

Hydric Soil

Water Quantity and Quality

- Soil-Pesticide Loss Potential
- Soil Ratings for Nitrate and Soluble Nutrients
- Soil Potential for Surface Runoff and Erosion
- Water Management
