

Source Data for the Official Soil Survey

Iredell County - General

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication included soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the USDA Service Center, NRCS Field Office, and designated as the "Official Copy". This official copy was established to maintain the most current soil information for a survey area.

The 1964 Iredell County soil survey is out-of-date but remains the official source of soil maps. The soil survey publication is out-of-print. An historical replica was made by scanning the soil survey publication and is available on CD. The soil maps are in the process of being digitized and will be available at no charge from this web site. The official source of soil data is the NASIS database. The tabular data may be downloaded from:

<http://soildatamart.nrcs.usda.gov/Download.aspx?Survey=NC097&UseState=NC>

A web based set of data is also available. Interpretations and data may be accessed at:

<http://soildatamart.nrcs.usda.gov/Report.aspx?Survey=NC097&UseState=NC>

The data on this site is the most current available.

Copies of the maps or CDs are available from:

STATESVILLE FIELD OFFICE

TELEPHONE: (704) 873-6761, Ext. 3 **FAX:** (704) 873-1712

Mailing Address: Agricultural Resource Center, 444 Bristol Drive, Statesville, NC 28677.

Iredell County is currently being updated. As mapping progresses, information will be available as an interim product. Contact the NRCS field office or the soil survey office at:
