Source Data for the Official Soil Survey

Beaufort County - General

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication included soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the NRCS Field Office and is designated as the "Official Copy." This official copy was established to maintain the most current soil information for a survey area.

The Beaufort County soil survey was published in 1981 and remains the official source of soil maps. The soil maps have been digitized. The official source of soil data is the NASIS database and the digital spatial data (SSURGO). The SSURGO tabular and/or spatial data may be downloaded from:

<http://soildatamart.nrcs.usda.gov/Download.aspx?Survey=NC013&UseState=NC>

A web-based set of data is also available. Interpretations and data may be accessed at:

<http://soildatamart.nrcs.usda.gov/Report.aspx?Survey=NC013&UseState=NC>

The data on these sites are the most current available.

Copies of the published soil survey are no longer available. Individual soil survey maps may be obtained from:

WASHINGTON FIELD OFFICE

TELEPHONE: (252) 946-4989 **FAX:** (252) 946-2501

Mailing Address: Agriculture Service Center, 155C Airport Road
Washington, NC 27889-9684.

For further information, contact the NRCS field office or the NRCS Resource Soil Scientist at:

EDENTON TECHNICAL SERVICES OFFICE

TELEPHONE: (252) 482-7437 **FAX:** (252) 482-3428

Mailing Address: 730 N. Granville St., Edenton, NC 27932-1735.
