Source Data for the Official Soil Survey

Brunswick County - General

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication includes soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the NRCS Field Office and is designated as the "Official Copy." This official copy was established to maintain the most current soil information for a survey area.

The Brunswick County soil survey was published in 1986 and remains the official source of soil maps. The soil maps are in the process of being digitized and will be available at no charge from this web site. The official source of soil data is the NASIS database. The tabular data may be downloaded from:

<http://soildatamart.nrcs.usda.gov/Download.aspx?Survey=NC019&UseState=NC>

A web-based set of data is also available. Interpretations and data may be accessed at:

<http://soildatamart.nrcs.usda.gov/Report.aspx?Survey=NC019&UseState=NC>

The data on these sites are the most current available.

Copies of the published soil survey are available from:

BOLIVIA FIELD OFFICE

TELEPHONE: (910) 253-2830 **FAX:** (910) 253-2836

Mailing Address: P. O. Box 26, Bolivia, NC 28422-0026.

Location: 10 Referendum Drive, Bolivia, NC 28422
