## Source Data for the Official Soil Survey

### **Greene County - General**

The traditional final product of first generation soil survey mapping has been the soil survey publication. Each publication includes soil map unit descriptions, series descriptions, tables of information (attributes), and maps. One copy of this publication is retained at the NRCS Field Office and is designated as the "Official Copy." This official copy was established to maintain the most current soils information for a survey area.

The Greene County soil survey was published in 1980 and remains the official source of soil maps. The soil maps have been digitized and are available at no charge from the following website: [http://www.ftw.nrcs.usda.gov/ssur\\_data.html](http://www.ftw.nrcs.usda.gov/ssur_data.html)

An additional source of soil data is the NASIS database. The NASIS data are available from this site in a Microsoft Access data template. The file name is the county FIPS code with a "zip" extension, nc079.zip. It may be downloaded and unzipped. The template, nc079.mdb, requires Microsoft Access 97 or newer. The data on this site are the most current digital data available.

Copies of the published soil survey are no longer available. Individual soil survey maps may be obtained from:

#### **SNOW HILL FIELD OFFICE**

**TELEPHONE:** (252) 747-3705 **FAX:** (252) 747-4257

**Mailing Address:** 3 Professional Drive, Suite D, Snow Hill, NC 28580-1332

or

#### **KINSTON FIELD OFFICE**

**TELEPHONE:** (252) 523-7010, Ext. 3 **FAX:** (252) 523-1353

**Mailing Address:** 2026 Hwy.11/55, Kinston, NC 28504

For more information, contact the NRCS field office or the NRCS Resource Soil Scientist at:
