**OPERATION AND MAINTENANCE ITEMS**

Obstruction removal is an asset to the farm. The purpose of this practice is to remove and dispose of unwanted obstructions. With proper operation and maintenance, the benefits of the practice should be permanent. The benefit life of this system can be assured and usually increased by developing and carrying out a good operation and maintenance program. An effective operation and maintenance program for this practice includes:

- Regrade or otherwise control erosion of the site.
- Maintain vigorous growth of desirable vegetation on disturbed areas. Reseed and fertilize as necessary to maintain stand and growth.
- Remove rodents and/or burrowing animals. Repair any damage caused by their activity.
- Repair any vandalism, vehicular or livestock damage.
