

**STATEMENT OF WORK**  
**Cross Wind Stripcropping (589b)**  
**Kansas**  
**September 2004**

**State contact: James Krueger, State Resource Conservationist, 785-823-4547, james.krueger@ks.usda.gov**

**These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.**

## **DESIGN**

---

### **Deliverables**

1. Pre-design conference with client
2. Design documentation that will demonstrate that the criteria in the (NRCS) practice standard has been met and is compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan
  - b. List of required permits to be obtained by the client
  - c. List of facilitating practice
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to the following:
    - i. Number of strips
    - ii. Alignment, orientation, and width of strips
    - iii. Vegetative cover
    - iv. Width of strips
    - v. Results of NRCS-approved erosion prediction tools or equivalent
    - vi. Stable outlets
3. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of Conservation Practice Standard 585b, Cross Wind Stripcropping.
4. Operation and maintenance plan
5. Certification that the design meets practice standard criteria and complies with applicable laws and regulations will be documented on Form KS-ECS-589b, Cross Wind Stripcropping.
6. Design modifications during installation as required
7. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.

## **INSTALLATION**

---

### **Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Application guidance as needed
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
7. Certification that the application process and materials meet design and permit requirements

## **CHECKOUT**

---

### **Deliverables**

1. Records of application
  - a. Number and width of strips
  - b. Actual row grade applied (for sheet and rill erosion) or strip orientation (for wind erosion)
  - c. Extent of practice units applied

**STATEMENT OF WORK**  
**Cross Wind Stripcropping (589b)**  
**Kansas**  
**September 2004**

2. Certification that the application meets NRCS standards and specifications and is in compliance with permits will be documented on Form KS-ECS-589b.
3. Progress reporting
