

WX Landowner Certification

I request the assistance of USDA-NRCS to determine the water needs for the following:

Irrigation:

Crop to be irrigated _____

Acres irrigated _____

Crop to be irrigated _____

Acres irrigated _____

Crop to be irrigated _____

Acres irrigated _____

Livestock Water:

Kind of animal _____

Number of animals _____

Kind of animal _____

Number of animals _____

Kind of animal _____

Number of animals _____

As a cooperative effort to maintain sound conservation practices in [enter County] and comply with NRCS wetland policy, I [enter client name] agree to provide compensatory mitigation for any wetland functions that will be lost as a result of the proposed activity as identified by [enter NRCS planner and NRCS Field Office] as part of the technical assistance I have received.

I understand that I will not be provided a final design or technical assistance without agreeing to fully mitigate any wetland function loss identified.

I also understand the technical assistance I will receive may be based on a Clean Water Act (Section 404) exemption and that exemption is based on information I have provided to NRCS. I understand that it is my responsibility to contact the US Army Corp of Engineers to obtain all necessary permits. I agree to provide NRCS with copies all necessary permits required for the proposed activity. Failure to agree to these terms will result in NRCS withdrawing all technical assistance.

Signed: _____
