

STATEMENT OF WORK
Fishpond Management (399)
Hawaii

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables

All design documents shall be developed in accordance with the requirements of the [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#) Section IV, Conservation Practice Standard.

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. List all required and/or facilitating practices.
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Aquatic species and stocking rates.
 - ii. Water source and suitability.
 - iii. Feed requirements as applicable.
 - iv. *For ancient Hawaiian Fishpond Management, plans and specifications shall be in accordance with State Historic Preservation Office requirements.*
 - v. *Nutrient Management Plan, if determined necessary because of any discharges.*
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits.
3. Operation and Maintenance Plan.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during application as required.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Application guidance as needed.
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, and local laws, regulations and NRCS policies during application.
6. Certification that the application process and materials meets design and permit requirements.
