

STATEMENT OF WORK
Stripcropping (585)
Hawaii

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables

All design documents shall be developed in accordance with the requirements of the [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#) Section IV, Conservation Practice Standard.

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. List of facilitating practice.
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Number of strips
 - ii. Minimum and maximum row grade for tilled strips (for sheet and rill erosion)
 - iii. Alignment, orientation and width of strips (for wind erosion)
 - iv. Vegetative cover
 - v. Width of strips
 - vi. Results of NRCS-approved erosion prediction tools or equivalent
 - vii. Stable outlets
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits. *The [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#) Section IV, Jobsheet for the practice shall be completed and used to provide the client with requirements to install the practice.*
3. Operation and Maintenance Plan. *The [NRCS Hawaii Field Office Technical Guide \(eFOTG\)](#) Section IV, Jobsheet for the practice shall be completed and used to provide the client with requirements for the operation and maintenance of the practice.*
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meets design and permit requirements.

STATEMENT OF WORK
Stripcropping (585)
Hawaii

CHECK OUT

Deliverables

1. Records of application.
 - a. Number and width of strips.
 - b. Actual row grade applied (for sheet and rill erosion) or strip orientation (for wind erosion).
 - c. Extent of practice units applied.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
