

STATEMENT OF WORK
Tree/Shrub Establishment (612)
Kansas
August 2004

State contact: James Krueger, State Resource Conservationist, 785-823-4547, james.krueger@ks.usda.gov

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.

DESIGN

Deliverables

1. Pre-design conference with client
2. Contact district forester for planning assistance
3. Planned practice as identified in the conservation plan will address the identified resource concern.
4. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.
5. Design documentation that will demonstrate that the criteria in Natural Resources Conservation Service (NRCS) practice standard has been met and is compatible with planned and applied practices. (Form KS-ECS-5, Tree/Shrub Planting)
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to the following:
 - i. Determination of adapted species of woody plants to be planted and/or naturally reestablished
 - ii. Protective measures for planted stock including supplemental water, cultural treatments to enhance survival and health, and use exclusion
 - iii. Additional provisions, as required, for improving or restoring natural diversity and increasing carbon storage in biomass and soils
6. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
7. Certification that the client has reviewed the design and agrees to carry out the practice as planned will be documented on Form KS-ECS-5.
8. Certification that that the design meets practice standard criteria and complies with applicable laws and regulations will be documented on Form KS-ECS-5.
9. Compliance with all federal, state, tribal, and local laws and regulations and NRCS policies during design will be documented on Form KS-CPA-52, Environmental Effects for Conservation Planning.
10. Compliance with NRCS national and state utility safety requirements (National Engineering Manual [NEM] Part 503-Safety, Section 503.00 through 503.22) Form KS-ENG-62, Letter to Land User Regarding Responsibility for Underground Utilities During Construction
11. Documentation of needed operation and maintenance
12. Progress reporting

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Application guidance as needed
5. Facilitate and implement required design modifications with client and original designer

STATEMENT OF WORK
Tree/Shrub Establishment (612)
Kansas
August 2004

6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements (Form KS-ECS-5).

CHECKOUT

Deliverables

1. Records of application (Form KS-ECS-5)
 - a. Extent of practice units applied
 - b. Actual plant materials used and protective measures
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits (Form KS-ECS-5).
3. Progress reporting
