

328 – Conservation Crop Rotation

- (i) Conservation Management Unit or field number, acreage of treated area, percent slope of field;
- (ii) Identify crops in rotation and duration (i.e., small grain 3 years, fallow 1 year);
- (iii) Kind, amount, timing, method of application of fertilizer, if applicable;
- (iv) Before and after soil loss calculations as a minimum, and soil tillage intensity ratings (STIR) and soil conditioning index (SCI) values if available;
- (v) Documentation that Pest Management Plan is being followed, if applicable.
