County

This conservation practice is an asset to your farm or ranch. This practice will need periodic operation and maintenance to maintain satisfactory performance. The life of this practice or system is at least 10 years. The life of this practice can be assured or extended by thorough and timely operation and maintenance. Here are some recommendations to help you develop a good operation and maintenance program.

GENERAL RECOMMENDATIONS

Maintain the roadway surface in a good condition, which includes periodic grading or repair of the surface.

Prevent surface ponding by grading to remove depressions.

Limit livestock usage to periods that permit use without damage.

If fences are installed, they shall be maintained to provide warning and/or prevent unauthorized human or livestock entry.

Remove debris to prevent blockage of stream crossings, culverts or bridges.

Control all rodents or burrowing animals. Immediately repair any damage caused by their activity.

Immediately repair any damage from vandalism, vehicles, or livestock.

Contact you local Natural Resources Conservation Service for any additional technical assistance that you might need for implementation of this operation and maintenance plan for your structure.
