

STATEMENT OF WORK
Surface Roughening (609)
Kansas
September 2004

State contact: James Krueger, State Resource Conservationist, 785-823-4547, james.krueger@ks.usda.gov

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific statements of work.

DESIGN

Deliverables

1. Pre-design conference with client
2. Design documentation that will demonstrate that the criteria in the Natural Resources Conservation Service (NRCS) practice standard has been met and is compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to the following:
 - i. Results of NRCS erosion prediction tools or equivalent, and other applicable technical tools to address targeted criteria
 - ii. Tillage implement requirements
 - iii. Tillage depth requirements
 - iv. Timing of tillage (soil moisture)
3. Certification that the design meets practice standard criteria and complies with applicable laws and regulations will be documented on Form KS-ECS-609, Surface Roughening.
4. Design modifications during application as required
5. Written plans and specifications (including sketches and drawings) shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
6. If enrolled in a conservation program, this practice must meet all conditions and requirements of program enrollment that may exceed the practice standard.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations, and NRCS policies during installation
6. Certification that the application process meets design and permit requirements

CHECKOUT

Deliverables

1. Records of application
 - Extent of practice units applied
2. Progress reporting
3. Certification that the application meets NRCS standards and specifications and is in compliance with permits will be documented on Form KS-ECS-609.
4. Progress reporting
