

**NATURAL RESOURCES CONSERVATION SERVICE  
CONSERVATION PRACTICE DOCUMENTATION REQUIREMENTS  
ATMOSPHERIC RESOURCE QUALITY MANAGEMENT  
(Ac.)  
CODE 370**

**REQUIRED FORMS**

Narrative in the conservation plan generated through Customer Service Toolkit including all applicable practices. At a minimum, practices 328, 329 and 340 are required on all cropland. Include any documentation requirements for the respective practice standards.

South Dakota Specification Sheet SD-CPA-29, Estimated Soil Loss from Wind and Water Erosion, (with a positive Soil Conditioning Index (SCI) and Soil Tillage Intensity Rating (STIR) values <10 for no-till or <15 for strip till).

Documentation required by the respective conservation practice standard for included buffer practices, Pasture and Hayland Planting (512), or Range Seeding (550).

**OPTIONAL DOCUMENTS**

SD-CPA-53, Estimated Soil Loss from Wind Erosion, for cropland fields with a wind erosion resource concern.

**PLANNING REQUIREMENTS**

The planning requirements for this practice will be constant with the individual practices to be implemented. Review the planning requirements for each practice.

**PERFORMANCE**

Field check the field(s) for practice implementation and document the installation in the conservation plan generated through Customer Service Toolkit.

Complete all data on all required forms for each individual practice implemented.

Complete all data on form SD-CPA-29 specification sheet.
