

NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE SPECIFICATION

**PLUMBING PLANT FOR WATER CONTROL – LIVESTOCK WATER
SYSTEM**

CODE 553-A

1. SCOPE

These construction specifications cover the materials and installation of plumbing plants for livestock water.

2. SUBMITTALS

- a. The installer shall furnish the NRCS written certification for the manufacture that the Installer-furnished equipment and materials conform to the requirements of this specification. These submittals shall be presented to the NRCS Contracting Officer or designee for approval 14 days prior to the commencement of the installation. No installation shall commence without the approval of submittals by the NRCS Contracting Officer.
- b. Warranty certificates, spare parts lists, service bulletins/manuals, and instructions covering the operation and maintenance of the equipment shall be furnished by the Installer to the landowner upon completion of the installation.

3. GUARANTEE

The Installer shall guarantee the pumping plant, in writing, for a period of at least on (1) year against materials and workmanship defects.

Conservation practice standards are reviewed periodically, and updated if needed. To obtain the current version of this standard, contact the Natural Resources Conservation Service.
