

# Mulching

## Conservation Practice Job Sheet

484

Participant Name \_\_\_\_\_

### **INFORMATION ON THIS JOB SHEET IS CONSIDERED TO BE PART OF THE CONTRACT AND/OR CONSERVATION PLAN.**

This Mulching Job Sheet will be used in installing a mulch cover as part of a conservation plan.

#### **Condition Where Practice Applies**

This practice applies to all lands where mulches are needed. This practice may be used alone or in combination with other practices.

#### **Operation and Maintenance**

- Mulched areas will be periodically inspected, and mulch shall be reinstalled or repaired as needed to accomplish the intended purpose.

- Removal or incorporation of mulch materials shall be consistent with the intended purpose and site conditions.
- Operation of equipment near and on the site shall not compromise the intended purpose of the mulch.
- Prevent or repair any fire damage to the mulch material.
- Properly collect and dispose of artificial mulch material after intended use.
- Monitor and control undesirable weeds in mulched areas.

**If conservation cover is being established under a program, follow management requirements as outlined on the program specific operation and maintenance job sheets or as outlined in the Addition Information Section located at the end of this document.**
