

STATEMENT OF WORK
Tree/Shrub Pruning (660)
MAINE

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan
 - b. List of required permits to be obtained by the client
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Pre-treatment inventory that determines species and number/tally of woody plants to be treated to achieve intended purpose(s)
 - ii. Minimum and maximum crown/branch removals by individual plant types and species
 - iii. Mitigation measures (e.g., slash and debris disposal) to minimize wildfire hazard and attraction of pests
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Documentation of needed operation and maintenance.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.
6. Completed TSP Progress Report.

INSTALLATION

Deliverables

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications, including marking of trees to be pruned, and applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.
8. Completed TSP Progress Report.

CHECK OUT

Deliverables

1. Records of application.
 - a. Extent of practice units applied, including actual species, tally of trees/shrubs pruned and height pruned or other extent of pruning, if not height.
 - b. Mitigation measures used and applied
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Completed TSP Progress Report.

Conservation practice statements of work are reviewed periodically, and updated if needed.
