

Revised February 2009

“The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA’s TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.”

FOREWARD

This Irrigation Guide was developed for sprinkler irrigation in the state of North Dakota. In March of 2005, chapters 1 and 2 were revised while the remainder of the irrigation guide (chapters 3, 4, 5, 6, 7, 8, 9) is unaltered. The guide has been prepared by the Natural Resources Conservation Service for use by trained technicians to provide planning and design assistance in the preparation of technically sound irrigation plans and the use of conservation measures on the irrigated lands.

The revisions in chapter 1 and 2 of the Irrigation Guide are based on the most recent technical data available. As more technical material is made available, additions and refinements will be made. This document is available and maintained on the North Dakota Natural Resources Conservation Service web site, under Electronic Field Office Technical Guide (eFOGT)/Section II. <http://www.nrcs.usda.gov/technical/efotg/>

Acknowledgements are due the Agricultural Research Service, the Cooperative Extension Service, the Agricultural Engineering Department and the Soils Department of North Dakota State University, the Bureau of Reclamation, the United States Geological Survey, and the North Dakota State Water Commission for assistance in developing this Irrigation Guide.

TABLE OF CONTENTS

<u>CHAPTER 1 - INTRODUCTION</u>	Page No.
General	1
Consumptive use and Crops	1
Glossary	1
<u>CHAPTER 2 - SOILS</u>	
Introduction	1
Available Water Capacity of Soils	1
Drainage	1
EC	2
Intake Rate	2
Lime	3
SAR	3
Slope	3
Soil Texture	3
General Information	3
Irrigable Soils	4
Conditional Soils	4
Non-irrigable Soils	4
Soil and Water Monitoring	4
Irrigation Groups	5-60
Conversion Table	61
Table 2.1 Available Water Capacities	62
Table 2.2 Approximate Reduction of Available Water in Soils as Related to the Conductivity	63

CHAPTER 3 - CROPS AND CONSUMPTIVE USE

Consumptive Use Definition	3-1
Effective Rainfall	3-1
Net Irrigation Requirements	3-2
Climatic Areas - Figure 3.1	3-4
Estimated Seasonal and Monthly Consumptive Use, Effective Rainfall and Net Irrigation Requirements - Tables 3.1 and 3.2	3-5
Daily Use by Crops for Peak or Design Conditions - Table 3.3	3-22
Crop Rooting and Irrigation Depths - Table 3.4	3-23
Irrigation and Crop Production	3-25
Moisture Stress Symptoms and Critical Growth Period for Irrigation Crops - Table 3.5	3-27
Control of Soil Erosion	3-28
Conservation Treatment Specifications	3-28

CHAPTER 4 - WATER FOR IRRIGATION

Quality	4-1
Classification of Irrigation Water - Figure 4.1	4-2
Guide to Water Quality Standards - Figure 4.2	4-3
Quantity	4-5
Major Aquifers - Figure 4.3	4-6
County Ground Water Studies - Figure 4.4	4-7

CHAPTER 5 - GUIDE FOR SELECTING TYPES OF SPRINKLER IRRIGATION

General Information	5-1
Types of Sprinklers	5-1
Types of Systems	5-2
Design Considerations for a Sprinkler System Using Lateral Line Operating in Sets	5-13
Design Considerations for Continuous Move Sprinklers	5-24

CHAPTER 6 - SURFACE IRRIGATION

General Explanation	6-1
Tables for Level Borders	6-3
Tables for Graded Borders	6-6
Tables for Furrow Irrigation	6-10
Table for Contour Ditch Irrigation	6-15

CHAPTER 7 - SUBSURFACE AND DRIP IRRIGATION

General Information	7-1
Subsurface Irrigation	7-1
Drip Irrigation	7-2

CHAPTER 8 - SPECIAL USES OF IRRIGATION EQUIPMENT

Waste Disposal	8-1
Frost Protection	8-3
Application of Fertilizers	8-3

CHAPTER 9 - SCHEDULING IRRIGATION

Neutron Meter	9-1
Electrical-Resistance Instruments	9-1
Tensiometers	9-3
Feel and Appearance Method	9-5
