

STATEMENT OF WORK
Agrichemical Handling Facility (309)
Montana

State Contact: State Conservation Engineer (406) 587-6828

These deliverables apply to this individual practice standard. For other planned practice deliverables refer to those specific Statements of Work. Planners shall follow and document all the requirements as outlined in the practice standard. The planner shall also follow and document the steps as outlined in various chapters in the Montana Supplement to the Engineering Field Handbook as it applies. Documentation and certification requirements for the practice are also outlined in the NRCS 450-General Manual, Part 407, Documentation, Certification and Spot Checking, MT407.10. This is located on the Montana eFOTG at

http://efotg.nrcs.usda.gov/references/public/MT/GM_450_Part_407.pdf

Documentation requirements for Technical Service Providers on engineering projects are located at

ftp://ftp-fc.sc.egov.usda.gov/MT/www/eng/engineering_documents/worksheets/ef50501b.pdf

DESIGN

Deliverables:

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06).
 - d. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. Geology and Soil Mechanics (NEM Subpart 531a).
 - ii. Structural, Mechanical and Appurtenance design
 - iii. Maximize Clean Water Diversion.
 - iv. Hydraulic Loading Rate.
 - v. Environmental Considerations (e.g. location, air and water quality).
 - vi. Vegetation.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Design Report and Inspection Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11 and Part 512, Subpart D Quality Assurance Activities, 512.30 through 512.32).
4. Operation and Maintenance Plan
5. Certifications that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03(b) (2)).
6. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-Installation conference with client and contractor.
2. Verification that client has obtained required permits and understands the final designed practice.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Installation inspection (according to inspection plan as appropriate).
 - a. Actual materials used.
 - b. Inspection records
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meets design and permit requirements.

STATEMENT OF WORK
Agrichemical Handling Facility (309)
Montana

State Contact: State Conservation Engineer (406) 587-6828

CHECK OUT

Deliverables

1. As-Built documentation.
 - a. Extent of practice units applied
 - b. Drawings
 - c. Final quantities
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Subpart A, 505.03(c) (1)).
3. Progress reporting.
