

**OPERATION AND MAINTENANCE PLAN  
FOR  
WATER WELL**

Landowner/user:  Date:

Address:

A properly operated and maintained **Water Well** is an asset to your property. The estimated life span of this practice is at least 20 years. The life of the practice can be assured and usually increased by developing and carrying out a good operation and maintenance program.

This practice will require you to perform periodic operation and maintenance to maintain satisfactory performance. The following are some recommendations to help you develop a good operation and maintenance program.

Operation and Maintenance

1. The well construction records shall be kept on file with the maintenance plan by the owner/operator. As a minimum, the plan shall include a statement of identified problems, corrective action taken, date, and specific capacity (yield per unit drawdown) of well before and after corrective action was taken.
2. Inspect periodically and immediately repair any damage to the well cover, electrical wiring, and accessories.
3. Keep traffic and pollutants away from well.

Specific Recommendations for Your Practice
